THE Melbourne and Metropolitan Board of Works, pursuant to and in exercise and execution of the powers and authorities conferred upon it by the Melbourne and Metropolitan Board of Works Acts and the Sewerage Districts Acts, and pursuant to and in exercise and execution of any other powers and authorities in any wise enabling it in that behalf, doth hereby make and prescribe the following By-law, that is to say:—

1. This By-law is to be read and construed as one with By-law No. 35, duly passed by the Board and afterwards approved by the Governor in Council on the 19th day of May, 1936, and gazetted on the 2nd day of September, 1936, as amended by By-law No. 43, duly passed by the Board and afterwards approved by the Governor in Council on the 2nd day of September, 1947, and gazetted on the 8th day of October, 1947, and shall come into operation on the 1st day of July, 1949.

2. All permits, licences, or agreements, whether written, verbal, or implied, pursuant to which any person discharged or caused, permitted, or allowed to be discharged any trade waste into any sewer of the Board are cancelled, and from and including the said 1st day of July, 1949, shall be void and of no effect: Provided, however, that such cancellation shall not affect any liability, whether for penalty, damages, or otherwise, which any such person may have incurred.

3. The said By-law No. 35, as amended by the said By-law No. 43 (such By-law as so amended being hereinafter in this By-law referred to as "the said By-law"), is hereby further amended as follows:—

(a) In clause 2 of the said By-law—

(i) after the interpretation of "Internal Closet" there shall be inserted the following interpretation:—

" 'Person' includes any person or body of persons or firm, corporation, or public authority."

(ii) For the interpretation of "Trade Waste" there shall be substituted the following interpretation:—

" 'Trade Waste' means waste other than ordinary domestic sewage."

(b) In clause 11 for the words of the said By-law "may be authorized under the hand of the Secretary" there shall be substituted the words "the Board may have agreed to admit into any sewer."

(c) For clauses 13 and 14 of the said By-law there shall be substituted the following clauses, respectively:—

"13. (1) (a) No trade waste shall be discharged directly or indirectly into any sewer of the Board unless the Board has entered into an agreement with the occupier of any property from which such trade waste is discharged to admit the same.

(b) Where no such agreement as aforesaid has been entered into with the occupier of a property from which trade waste is discharged directly or indirectly into any sewer of the Board, the Board may by its officers, servants, agents, or workmen enter upon the property and every part thereof and carry out such works as may be necessary in order to prevent the discharge of such trade waste into its sewer. Any expense incurred by the Board in carrying out such works shall be payable by the occupier and may be recovered in addition to any penalty for which he may be liable.

(2) Application to the Board to enter into an agreement for the admission into any sewer of any trade waste from any property shall be made, in writing, by the occupier upon a prescribed form and shall set out:—

- (i) Any process of trade or manufacture from which trade waste is discharged or is proposed to be discharged into the Board's sewer.
- (ii) The nature of the trade waste from every such process.

(iv) The hours of the day and the days of the week during which discharge of trade waste from every such process would normally take place.

(v) The estimated maximum daily discharge of such trade waste into the Board's sewer.

Such application shall be accompanied by detailed plans of the apparatus to be used for the treatment of the said trade waste, and by such other information regarding the processes of trade or manufacture, the quantities of raw materials or goods to be processed or manufactured, the nature, quantity, rates, and times of discharge, and any other matter required by the Chief Engineer of Sewerage.

(3) Any agreement made by the Board with the occupier of any property to admit trade waste therefrom into any sewer of the Board shall contain a covenant on the part of such occupier to comply with the terms, conditions, and provisions of this By-law or any amendment thereof, and shall be subject to the following conditions and such other conditions as may be required by the Chief Engineer of Sewerage, having regard to the special circumstances of the case:—

(a) That if at any time in the opinion of the Chief Engineer of Sewerage—

- (i) the quality, quantity, or rate of discharge of the said trade waste is not in compliance with the terms, provisions, or conditions of the said agreement, or

- (iii) the treatment apparatus is not in efficient working order, or
- (iv) a breach of the said agreement has been made—

the Board may serve a notice, in writing, upon the occupier of the said property by leaving the same thereon or posting it, addressed to him at the said property, in which notice reference will be made to such of the matters aforesaid in respect of which a breach has taken place, or as to which the occupier is in default or concerning which there is any complaint by the Chief Engineer of Sewerage, and the said occupier shall be required to make good the same in all things to the satisfaction of the Chief Engineer of Sewerage within a period to be stated therein, and if the requirements of the said notice have not been complied with on the expiration of the period mentioned therein the said agreement shall automatically terminate, and the same shall without further or other notice from the Board be and be deemed to be at an end save and except as to the covenants on the part of the occupier to be performed and as to the power of entry by the Board's officers as hereinafter set forth, and the occupier shall not be entitled to any compensation whatever in connexion therewith.

(b) The Chief Engineer of Sewerage shall be the sole judge as to the quality, quantity, and rate of discharge of such trade waste and as to whether such quality, quantity, or rate complies with the conditions of the said agreement and of the Sewerage By-laws and Regulations of the Board, and his decision in regard thereto shall be final and conclusive.

(c) The maximum daily quantity of wastes, including, where there is a common discharge, both trade waste and ordinary domestic sewage, which may pass from any property into a sewer of the Board, the maximum rate of discharge of such wastes, the size and capacity of the drain for conveying such wastes from the property to such sewer, and the hours during which such flow will be permitted shall be determined by the Chief Engineer of Sewerage.

- (d) Before discharge into any sewer of the Board, all such trade waste shall be passed through such apparatus or machinery, and shall be subjected to such treatment as the Chief Engineer of Sewerage may determine, and all such apparatus or machinery shall be approved in type and general arrangement by the Chief Engineer of Sewerage, but the occupier shall determine the size, capacity, and details of the apparatus or machinery necessary to provide treatment in compliance with the requirements of the said agreement and of this By-law.
- (e) The occupier shall notify the Board, in writing, of his desire to make any change in any process of trade or manufacture which may in any way affect—
- (i) the nature of the trade waste from any process of trade or manufacture, or
 - (ii) the quality, quantity, or rate of discharge of such trade waste from any such process of trade or manufacture, or
 - (iii) the hours of the day and the days of the week during which trade waste is to be discharged from any such process—
- and no alteration or addition to the apparatus or machinery or to the method of treatment shall be made without the approval, in writing, of the Chief Engineer of Sewerage.
- (f) In all cases of change of the occupancy of any property from which is discharged trade waste, which the Board has agreed to admit into its sewer, the occupier shall prior to such change give not less than 30 days' notice thereof, in writing, to the Board, and in default of such notice he shall remain liable for all charges and all other moneys payable to the Board under the said agreement or terms of this By-law, which may after the change of occupancy be incurred in connexion with the discharge of such trade waste.
- (g) The said agreement shall not be assigned or transferred except by permission, in writing, under the hand of the secretary.
- (h) Any person, who before entering into an agreement with the Board has entered into the occupation of any property from which has been discharged trade waste which the Board has agreed with a previous occupier to admit into its sewer, shall not be entitled to discharge trade waste into such sewer unless the Board has first permitted the assignment or transfer of the agreement, pursuant to the terms of which trade waste was admitted into its sewer or unless the Board has first entered into a new agreement with the said person to admit into its sewer trade waste from the said property, and if such person discharges directly or indirectly trade waste into such sewer before obtaining such consent or entering into such new agreement he shall, in addition to any penalty in this By-law provided, be liable for all amounts in respect of the discharge of trade waste owing at the time he entered into occupation of the property, as well as such amounts which may become payable in respect of any discharge of trade waste after that time:
- Provided that neither the payment of any such amounts by such person nor the acceptance thereof by the Board shall in any way constitute an agreement by the Board to admit trade waste into its sewer.
- (i) The Chief Engineer of Sewerage or any other authorized officer, servant, agent, or workman of the Board shall be at liberty at any time and from time to time to enter upon the property and every part thereof for the purpose of ascertaining whether the quality, quantity, or rate of discharge of trade waste complies with the conditions of the said agreement and of the Sewerage By-laws and Regulations of the Board, for the purpose of inspecting the treatment apparatus installed in or upon such property, for the purpose of making any measurement or assessment of the volume of such trade waste admitted into the Board's sewer, or for any other purpose set forth in this By-law.
- (j) All apparatus for the treatment of trade waste, in accordance with this By-law, shall be cleansed and maintained by the occupier at his own expense so that it operates efficiently at all times and does not cause a nuisance.
- (k) Notwithstanding the permission or approval of the Board or of the Chief Engineer of Sewerage, the occupier of any property shall be solely liable for and in respect of—
- (i) any accident or damage, loss or injury directly or indirectly arising out of or resulting from the discharge of trade waste from the said property into any sewer of the Board, and the occupier shall agree to hold harmless and keep indemnified the Board against all claims and demands for such damage, loss, or injury of any description made or suffered by the workmen of the Board or any person or persons whomsoever, and
 - (ii) all damage or injury occasioned or done to any sewer of the Board or any property belonging to the Board or any person whomsoever by reason of such discharge failing to comply with the terms, conditions, and provisions of the said agreement or of the Sewerage By-laws of the Board, and the Board shall be at liberty at the expense in all things of the occupier to repair, remedy, and make good all such damage or injury as aforesaid, and the Chief Engineer of Sewerage shall certify the cost and expense thereof, and such certificate shall be final and conclusive as to such amount which shall be paid forthwith to the Board.
- (l) The Board may when thought necessary by the Chief Engineer of Sewerage, without payment of any compensation therefor, exclude from its sewers all trade waste from any property during the repairing, examination, or maintenance of the said sewers or the carrying out by the Board of any works in connexion therewith.
- (m) In addition to the rates normally levied by the Board in respect of any sewered property, the occupier of any property or portion thereof from which is discharged trade waste, which the Board has agreed to admit into its sewer, shall pay on demand an amount of Ten shillings for each 10,000 gallons so admitted, but in any case not less than the total amount of Five pounds in any one year: Provided that where an approved meter or approved apparatus for limiting the maximum possible rate of discharge is installed on any property and is maintained at all times in an efficient working condition by the occupier, a discount of 2½ per cent. will be allowed for every 5 per cent. by which the ratio of the maximum hourly discharge to the mean hourly discharge is less than four to one (4:1): Provided however, that the allowable discount in any case shall not exceed 30 per cent. For the purposes of this sub-clause, the maximum hourly discharge shall be either that permitted by

the limiting apparatus installed, or where a meter is installed calculated by averaging the maximum hourly discharge recorded by the meter in each calendar month in the period for which the charge is being made, and the mean hourly discharge shall be calculated by dividing the total volume discharged in the period for which the charge is being made by 120 times the number of weeks contained in such period.

- (n) For the purpose of calculating the amount payable, pursuant to the preceding sub-clause, the volume of trade waste admitted into any sewer of the Board shall be determined by any of the following methods as directed from time to time by the Chief Engineer of Sewerage:—
- (i) Measurement by an approved meter of the volume of trade waste discharged.
 - (ii) Measurement by an approved meter of the volume of trade waste and ordinary domestic sewage discharged, and deducting an allowance for ordinary domestic sewage as hereinafter provided.
 - (iii) Measurement or assessment of the total volume of water supplied to the property and multiplying such volume by a factor, determined by an officer of the Board by measuring or assessing the water supplied to the property over such a period, being not less than two weeks, as may be directed by the Chief Engineer of Sewerage, and
 - (a) measuring or assessing the trade waste discharged to the sewer over the same period, and dividing the volume of trade waste so determined by the volume of water supplied, or
 - (b) measuring or assessing the volume of trade waste and domestic sewage discharged during the same period, and deducting an allowance for ordinary domestic sewage as hereinafter provided, and dividing the volume of trade waste so determined by the volume of water supplied.
 - (iv) Measurement or assessment of the portion of the water supplied to the property and not discharged to the sewer, and deducting this amount together with any allowance for ordinary domestic sewage as hereinafter provided from the total amount of water supplied to the property.
 - (v) From information supplied by the occupier, in accordance with sub-clause (2):
- Provided that for the purposes of any calculation or determination to be made under this sub-clause—
- (a) where there is a common discharge of both trade waste and ordinary domestic sewage, domestic sewage shall be allowed for at the rate of 30,000 gallons per annum for each water closet on the property contributing to such discharge, and
 - (b) the volume of water supplied to any property shall include water supplied from the Board's mains and water from any other source.

Where an occupier considers that the Board's determination of the volume of trade waste being discharged to any sewer of the Board is in excess of the actual volume so discharged, the Chief Engineer of Sewerage may upon the receipt of written application by the said occupier carry out such measurements

as he considers practicable and necessary to determine the volume of trade waste discharged, and all costs incurred by the Board in so doing shall be borne by the occupier, unless the volume then determined is at least 10 per cent. less than the Board's determination.

- (o) Notwithstanding anything contained in this clause, where the quantity of trade waste discharged from a property in any one year does not exceed 100,000 gallons, and where in the opinion of the Chief Engineer of Sewerage such trade waste is not liable to be harmful to the sewerage system of the Board or to the employees of the Board engaged in the maintenance thereof, or to affect the treatment of the sewage, the charges set out in sub-clause (m) hereof will not apply.
- (p) Notwithstanding any other provision of this clause, the occupier of any property from which trade waste is discharged into any sewer of the Board shall if and where directed by the Chief Engineer of Sewerage install any or all of the following:—
- (i) Approved meters or devices for measuring the volume or rate of discharge.
 - (ii) Approved chambers for sampling and measurement of the trade waste discharged.
 - (iii) Approved meters or devices for measuring the volume of water supplied to the property from any source other than the Board's mains, where any portion of such water is discharged to any sewer of the Board.
- Notwithstanding anything contained in this By-law, the Board may from time to time, at its own expense, install such meters or devices as in the opinion of the Chief Engineer of Sewerage may be necessary for the measurement of water, domestic sewage, or trade waste, and at any time may remove such meters or devices.
- (q) All meters or devices installed by or for the occupier for the purposes of this clause shall at all times be readily accessible to the officers of the Board, and shall be maintained in correct adjustment and working condition by him. The occupier shall, on demand, make available to the Board all charts and records of discharge as may be required by the Chief Engineer of Sewerage, and shall preserve for this purpose such charts and records for a period of eighteen months.
- (r) If in the opinion of the Chief Engineer of Sewerage any approved meter or other approved measuring device installed in any property shall at any time be found to be out of repair or in an inefficient state or condition or to have registered incorrectly or to have ceased to register, then the Board may adjust the charge in respect of the period from the last preceding reading as follows:—
- (a) If a reading was recorded for the corresponding period of the previous year, the charge may be calculated upon the basis of the daily discharge equal to the average daily discharge during such corresponding period of the previous year, or
 - (b) if no reading was recorded for the corresponding period of the previous year, the charge may be calculated upon the basis of the daily discharge equal to the average daily discharge during the period covered by the first reading after the meter or measuring device as aforesaid has been put into good repair and in an efficient state and condition, or another meter or other measuring device has been fixed in its place, or

(c) the Board may carry out such measurements as are considered necessary by the Chief Engineer of Sewerage to determine the relationship, which the quantity registered by the meter or other measuring device bears to the correct quantity:

Provided that in any such case the charge may be adjusted upon such other basis as is mutually agreed upon between the Board and the occupier of the property from which trade waste is discharged.

(s) The Board by its secretary may at any time give twelve months' notice of the termination of the said agreement, and immediately upon the expiration of such period of twelve months the said agreement shall save, and except for the covenants on the part of the occupier to be performed, and as to the power of entry by the Board's officers as hereinafter set forth be at an end.

(t) Upon termination and ending of the said agreement whether by notice given, pursuant to the provisions of this sub-clause or otherwise, the occupier shall at his own expense in all things and to the satisfaction of the Chief Engineer of Sewerage disconnect the pipe or pipes used to discharge trade waste into the sewer of the Board, and put an end to the further entry or discharge of the said trade waste into the said sewer, and in default of the occupier so doing within a period of seven days from the date of termination of the said agreement or such further period as the Chief Engineer of Sewerage may allow the Board by its officers, servants, agents, or workmen may enter upon the said property, and at the cost and expense in all things of the occupier disconnect such pipe or pipes and put an end to the further entry of trade waste to such sewer, and the amount of such cost and expense shall be certified by the Chief Engineer of Sewerage, and his certificate shall be final and conclusive as to the amount thereof, and such amount shall be paid forthwith by the occupier."

"14. Any person who discharges directly or indirectly or causes, permits, or allows so to be discharged from any property occupied by him into any sewer of the Board any trade waste, unless the Board has first entered into an agreement with him to admit such trade waste into its sewer, or where such agreement has been entered into discharges directly or indirectly or causes, permits, or allows so to be discharged trade waste into such sewer otherwise than in conformity with the terms and conditions of such agreement, or in the event of such agreement being terminated continues to discharge directly or indirectly or to cause, permit, or allow so to be discharged trade waste into such sewer shall be guilty of a breach of this By-law and be liable to a penalty of not more than £20 and to a penalty of not more than One pound for each day during which such breach is continued, and such penalty shall be recoverable notwithstanding the Board has not chosen to exercise any power given to it by this By-law to remedy such breach."

(d) (i) After the word "Construction" appearing in the heading to clause 67 of the said By-law there shall be inserted the words "and Maintenance", and

(ii) At the end of the said clause 67 there shall be inserted the following paragraph:—

"The occupier of any property in which a grease trap is fixed shall cleanse and maintain such grease trap so that it operates efficiently at all times and does not cause a nuisance."

(e) In clause 179 before the words "The floors of shower compartments" there shall be inserted the figure (1), before the words "The level of the grating" there shall be inserted the figure (2), and before the words "The walls of shower compartments" there shall be inserted the figure (3),

(f) In clause 199 of the said By-laws for the figures "148" there shall be substituted the figures "149."

4. The said By-law as so amended is hereby ratified and affirmed.
