*Prices Regulation Act 1948.*

PRICES REGULATION ORDER No. 56.

DRUGS AND CHEMICALS.

IN pursuance of the powers conferred upon me by the *Prices Regulation Act 1948*, I, Michael Maurice Gloster, Acting Prices Decontrol Commissioner, hereby make the following Order:—

*Citation.*

1. This Order may be cited as Prices Regulation Order No. 56.

*Revocation.*

2. Prices Regulation Order No. 1578 made under Commonwealth National Security (Prices) Regulations is hereby revoked.

*Definitions.*

3. In this Order, unless the contrary intention appears, "metropolitan area" means all that area of Victoria comprised within a radius of twenty miles from the General Post Office, Melbourne.

*Wholesale Maximum Prices.*

4. (1) Subject to sub-paragraphs (2) and (3) hereof, I fix and declare the maximum price at which any of the drugs or chemicals specified in the first column of the Schedule to this Order may be sold by wholesale to be—

(a) where delivery is made within the metropolitan area—the price set out opposite thereto in the second column of the said Schedule;

(b) where delivery is not made within the metropolitan area—

(i) where transported from the metropolitan area, the price set out opposite thereto in the second column of the said Schedule, plus the cost of transport (if any) actually incurred and properly attributable to the conveying of those drugs or chemicals from the metropolitan area; or

(ii) where transported from any place outside the metropolitan area, the price set out opposite thereto in the second column of the said Schedule less the usual cost of conveying those drugs or chemicals from the premises of the seller to the metropolitan area, plus the cost of transport (if any) incurred in and properly attributable to the conveying of those drugs and chemicals from such first-mentioned place.

(2) No amount shall be included in pursuance of the provisions of this paragraph for cost of transport unless—

- (a) where transport costs are incurred, in relation to such drugs or chemicals, by the person from whom the retail seller purchased those drugs or chemicals, such costs are separately stated on an invoice delivered by such person to such retail seller; or
- (b) where transport costs are incurred in relation to such drugs or chemicals by the retail seller, such costs are recorded by such retail seller on an invoice delivered to him by the person from whom he purchased such drugs or chemicals.

(3) Where a maximum price calculated under the provisions of this paragraph is not an exact number of pence or halfpence, such price shall be calculated to the next upward halfpenny.

*Fixation of Maximum Prices by Notice.*

5. Notwithstanding the foregoing provisions of this Order, I declare the maximum price at which any drugs or chemicals specified in a notice in pursuance of this paragraph may be sold by any person to whom such notice is given, to be such price as is fixed by notice by the Commissioner in writing to that person.
