PRICES REGULATION ORDER No. 573.

THE INSTALLATION OF ELECTRICAL WIRING AND FITTINGS.

IN pursuance of the powers conferred upon me in that behalf by the Prices Regulation Acts, I, John Francis Waldron, Prices Commissioner, hereby make the following Order:—

Citation.

1. This Order may be cited as Prices Regulation Order No. 573.

Definitions and Interpretations.

2. (1) In this Order, unless the contrary intention appears—
 - “Electrical installation” means the service of the installation and/or renewal of electrical wiring and fittings in any building.
 - “Electrical Contractor” means a person who supplies any service of electrical installation to another person.
 - “Electrical Mechanic” means a person—
 - (a) who, by service as an apprentice, has qualified for employment as a tradesman in the electrical installation trade; or
 - (b) where the terms of any relevant statute, Regulation or by-law require the holding of a licence or certificate to carry out the particular electrical installation service in respect of which the charge is made, who holds such licence or certificate; or
 - (c) who, under the terms of the award applicable to his employment at the time the question arises, is entitled to a wage rate not less than the minimum wage rate payable under that award to qualified electrical mechanics.

“Electricians apprentice” means a person who is bound to another person by a contract of apprenticeship for the purpose of learning the trade of electrical installation and includes a person serving a period of probation with a view to being so apprenticed.

“Rate” includes remuneration.

“Relevant Award” means an award, order, determination, decision or agreement made in pursuance of the provisions of any Commonwealth or State Act which governs the terms and conditions of the employment by an electrical contractor of an electrical mechanic or electrical apprentice in connexion with the particular electrical service in respect of which the charge is made by the electrical contractor.

“Year” refers to the period of service of an apprentice under his apprenticeship.

(2) For the purposes of this Order, any reference to the supply of the service of electrical installation shall, unless the contrary intention appears, be deemed to include a reference to the sale or supply of any materials in connexion therewith.

Maximum Rates.

3. (1) Subject to the provisions of this clause, I fix and declare the maximum rate at which the service of electrical installation may be supplied by an Electrical Contractor to be the sum of—

- (a) an amount calculated at the appropriate hourly rate specified in the Schedule to this Order according to the time actually occupied by that Electrical Contractor and any electrical mechanic or apprentice employed by him in connexion with the supply of that service;
- (b) the purchase price paid or payable (but where such goods are declared goods not in excess of the maximum permissible price therefor under the Prices Regulation Acts) for any materials supplied by him in connexion with the supply of that service, plus 20 per centum thereof;
- (c) any amount paid or payable by that electrical contractor for any service supplied by any other person in connexion therewith;
- (d) whenever the place at which any service is supplied is distant by more than 10 miles from the place of business of the Electrical Contractor supplying the service, a travelling allowance, calculated at the rate of 9d. per mile for each mile necessarily travelled in journeying from the place of business to that place and returning to the place of business; and
- (e) whenever the place at which any service is supplied is distant less than 10 miles from the place of business of the Electrical Contractor supplying the service, a cartage allowance, calculated at the rate of 9d. per mile for each mile necessarily travelled in transporting materials between that place of business and the place where the service is supplied.

(2) In calculating the maximum rate fixed as aforesaid, regard shall be paid to the following provisions:—

- (i) In calculating the hourly rates specified in the Schedule to this Order no allowance shall be made for time spent by the Electrical Contractor or his employees in procuring materials supplied in connexion with the supply of that service;

- (iii) the time spent by the Electrical Contractor and his employees in journeying between the place of business and the place at which the service is supplied shall, subject to the next succeeding paragraph of this sub-clause, be allowed in calculating the hourly rates specified in the Schedule to this Order;

- (iv) where, by reason of any mechanical defect or accident in respect of any vehicle used by that Electrical Contractor in connexion with the supply of that service there is an increase in the time occupied in performing that service, no allowance shall be made for such increase in time in calculating the hourly rates specified in the Schedule to this Order;
- (v) in calculating the pursuance of the provisions of paragraph (iii) hereof, the time spent in journeying between the place of business and the place at which the service is supplied, there shall not be taken into account the time spent in journeying by any person—
 - (a) who is not directly engaged in supplying the service in question; and
 - (b) who is not an electrical contractor, electrical mechanic or electrician's apprentice.
