4. Subject to the provisions of this Order, I fix and declare the maximum rate at which any service of removing furniture by a motor vehicle of a load capacity of 1½ ton or more may be supplied to be as follows:—

(1) For Removals—

- (a) from any place within the Metropolitan Area to any other place within the Metropolitan Area; or
- (b) from any place outside the Metropolitan Area to any other place within a distance of 20 miles of the principal post office at the place where the depot of the furniture remover is situated—

- (i) where the service is rendered wholly during ordinary time or wholly during time and a half or wholly during double time—an amount calculated at the rate per hour specified in column 2 or column 3 or column 4 of the First Schedule to this Order (as the case requires).

- (ii) where the service is rendered partly during ordinary time and partly during time and a half or double time or partly during time and a half and partly during double time—

- (a) for that part of the service which is rendered during ordinary time—an amount calculated at the rate per hour specified in column 2 of the said First Schedule;

- (b) for that part of the service which is rendered during time and a half—an amount calculated at the rate per hour specified in column 3 of the said First Schedule;

- (c) for that part of the service which is rendered during double time—an amount calculated at the rate per hour specified in column 4 of the said First Schedule.

(2) For removals from any place in Victoria to any other place distant more than 20 miles but not more than 60 miles from the place where the depot of the furniture remover is situated—an amount calculated at the appropriate rate set out in the Second Schedule to this Order—on the mileage actually and necessarily traversed in rendering the service plus an amount for time spent on loading and unloading calculated at the rate set out in that Schedule.

(3) For removals from any place in Victoria to any other place distant more than 60 miles from the place where the depot of the furniture remover is situated—an amount calculated at the appropriate rate set out in the Third Schedule to this Order on the mileage actually and necessarily traversed in rendering the service.

- (ii) the rates set out in column 3 or column 4 of the First Schedule may be charged only upon the express authority of the person for whom the service is rendered;
- (iii) the times occupied shall be computed from the time of departure of the vehicle from the depot of the furniture remover or place where it commenced its journey for the purpose of carrying out the said service whichever time is the later, until its return direct to the depot of the furniture remover, or if such vehicle does not return direct to the depot of the furniture remover, then until such time as the loading of the furniture in respect of another service of removing furniture is commenced, but in such latter case so as not to exceed the time it would ordinarily have taken to return direct to the depot of the furniture remover;
- (iv) where by reason of any mechanical defect, breakdown or accident the time occupied in rendering any service is increased, such increased time shall not be taken into account in the making of the calculation.

6. In cases where a load consists of furniture removed on behalf of more than one customer, the maximum rate for the particular load shall be apportioned amongst the customers concerned in the same ratio as the cubic measurement of each customer's furniture bears to the total cubic measurement of all furniture carried in such particular load.

4. (1) Subject to the provisions of this clause, I fix and declare the maximum rate at which the service of plumbing may be supplied by a Master Plumber to be the sum of—
