Prices, which must be expressed in words as well as in figures, and without alterations, erasures, or discrepancies, must be per cord of 128 cubic feet when stacked, including delivery and all charges.

Tenders, which must be upon the printed form, will be received for one or more of the above-mentioned places, and tenders for such places may be accepted separately; any of the lengths of wood stipulated may be tendered for and may be accepted separately.

Tenderers must specify the kind or kinds of firewood offered.

Telegrams or tenders not complying with the terms of advertisement will not be entertained.

No security will be required.

Tenderers failing to take up their accepted tenders, or failing to carry out their contracts satisfactorily, will be ineligible to again hold contracts for Government supplies.

Tenders must be enclosed in an envelope, marked "Tender for Firewood at.....," as the case may be, and deposited in the Tender Box, Tender Board Offices, Gisborne-street, Melbourne, C.2; or, if sent by post, they must be addressed to the Chairman of the Tender Board, Tender Board Offices, Macarthur-street, Melbourne, C.2.

The lowest or any tender will not necessarily be accepted.

Acceptance of tenders will be notified in the *Government Gazette* and by letter to successful tenderers.

\* Firewood sold by weight in this district.

## CONDITIONS OF CONTRACT.

1. As the exact quantity of firewood which may be required cannot be stated, the estimate being approximate only, the Government will not be bound by the quantity stated, but will be at liberty to order more or less, according to circumstances, and the contractor will be bound to supply the same at contract rates.

2. All the firewood supplied under these contracts must be split out of large timber, must be perfectly sound, dry, and of the kind or kinds specified in the tender; neither burnt wood, heartwood, small branches, nor outside pieces of bark will be received. The billets must be not less than 4 inches nor more than 6 inches in diameter, and the long wood to be not less than 9 inches nor more than 18 inches in diameter. Delivery to be made on the written order of the authorized officer of the Department requiring the supply. The cord of firewood consists of 128 cubic feet when stacked. If the firewood be obtained from a State Forest Timber Reserve, or ordinary Crown lands, persons cutting or removing same must be provided with a licence or permit from the Forests Commission.

3. Orders will be issued half-yearly (except in cases where the storage is small, when they will be issued quarterly).

4. The contractor will be bound to place the firewood in stacks for measurement in such places as may be directed by the officer receiving the supply. The stacks are to be for 2 foot wood, 2 feet wide and 4 feet high, for 5 foot and 6 foot wood, 5 feet and 6 feet wide respectively and 5 feet high, with space between each stack for measuring; and the billets (or lengths) are all to lie the same way, viz., crossways of the stacks in the form of a cord, and are to be laid as closely and solidly as possible in the stack, and to the satisfaction of the officer receiving the supply. In the event of any inconvenience being caused, either through delay in delivery or of stacking the wood, or failure to stack the wood in the places directed, the Department concerned will purchase elsewhere or re-stack that delivered, at the risk of the contractor, from whose account any expense incurred thereby will be deducted, provided that the contractor shall be given 48 hours' notice before purchases are made or the wood re-stacked at his risk.

5. The officer receiving the supply shall have full power to reject any wood which he may consider not in accordance with the contract, notice of which will be given to the contractor in writing, stating the reason. The contractor may, however, claim a survey; but in that case he must, within 48 hours after objection is made, give notice thereof in writing to the officer rejecting the wood.

6. The board of survey will be composed of persons appointed by the Tender Board, and the decision of the board of survey is to be considered as final.

7. If the board of survey shall decide that the supply is not of proper quality, it must be immediately replaced by the contractor; failing which it will be procured elsewhere, and the extra expense incurred thereby, if any, will be deducted from the contractor's account.

8. Accounts for firewood shall be rendered to the Department receiving the supply immediately upon completion of the order, which must be attached to the account. Payment will be made through the Treasury, Melbourne.

9. In the event of any irregularity on the part of the contractor being repeated, it will be competent for the Government, in case such irregularity should be established to the satisfaction of the Tender Board, to cancel the contract forthwith.

10. Contractors are not at liberty to transfer their contracts under cover of power of attorney, coupled with an interest or otherwise, and no such transfer will be recognized by the Government.

11. Under no circumstances will a contractor be permitted to abandon his contract.
