Where employment involves functions of a mixed character, and an employee is employed for sixteen hours in any one week on work for which a higher rate of pay is prescribed by this Determination than the rate prescribed for the work which he usually does, the minimum rate to be paid to such employee shall be calculated for the week as if he performed such only of the functions as are represented by the highest rate, but, if employed for less than sixteen hours on such higher class of work, he shall be paid the rates prescribed by this Determination for the work he actually does from time to time.
