- (e) in all cases where the soil is such that liquid is not readily absorbed the bottom of the trench shall be broken up roughly so that liquid from the nightsoil may drain rapidly into the spaces between the clots, provided that no trench shall be so used where the bottom consists of rock or other impermeable material.

BY-LAW No. 29.

A By-law of the Shire of Buln Buln, made under the *Health Act 1928*, and numbered 29, for the purpose of providing for the collection, removal, and disposal of refuse.

IN pursuance of the powers contained in the *Health Act 1928*, and of any other power thereunto enabling them in that behalf, the Council of the Shire of Buln Buln, in the name and on behalf of the President, Councillors, and Ratepayers of the said Shire, for the purpose of carrying the said Act into execution within their jurisdiction, make the following By-law (that is to say):—

1. All former By-laws so far as they relate to the matters and things provided for in this By-law are hereby repealed.

2. This By-law shall come into full force and operation on its approval by the Governor in Council and immediately after its publication in the *Government Gazette*.

3. This By-law shall apply to and have operation in the Drouin Township Sanitary Area, and, unless exempted by the Council, shall apply to every house, building, and premises therein.

4. In this By-law, unless inconsistent with the context or subject-matter—

“Proprietor” means the proprietor of any premises, and includes the owner, the occupier, or any person having the management or control thereof.

“Refuse” includes all wastes (except sewage and manure) produced or accumulated in or about any house, building, or premises.

5. The proprietor of every house, building, or premises shall provide, keep, and maintain at all times upon his premises a properly constructed receptacle in which he shall from time to time cause to be deposited all refuse produced or accumulated in or about such house, building, or premises.

6. Such receptacle shall be constructed of galvanized iron of not less than 24 gauge or other approved material in such a manner as to prevent any absorption by any part of such receptacle of any offensive matter which may be deposited therein, or any escape by leakage or otherwise of any part of the contents of such receptacle.

7. Each such receptacle shall have a capacity of not more than 4 cubic feet, and shall be so constructed as to be capable of being easily and conveniently carried by one man.

8. It shall be strongly constructed and provided with properly attached side-lifting handles.

9. Such receptacles shall be provided with a suitable close-fitting lid with a flange overlapping the top of such receptacle, and shall be kept constantly covered (except when such refuse is being deposited therein or discharged therefrom), and a sufficient quantity of some efficient deodorant shall be from time to time introduced therein when necessary to keep such refuse in an inoffensive condition.

10. No person shall place or cause or permit to be placed any slops or liquid waste in such receptacle, nor shall deposit any moist refuse in such receptacle unless such moist refuse has been previously strained and effectually wrapped in paper.

11. The proprietor shall cause such receptacle to be kept at all times in good order and inoffensive, and shall coat the inside of such receptacle with tar or other suitable substance when deemed necessary by the Council.

12. The proprietor (at such hours and on such days as may be appointed by the Council for the removal of refuse) shall cause such receptacle to be deposited close to and inside the entrance to such house, building, or premises from the street, lane, or right-of-way on which such house, building, or premises abut in order that the contents of such receptacle may be conveniently removed by the contractor or person authorized or employed in that behalf by the Council.

13. No person shall place or cause to be placed any such receptacle in or upon any street, except in the case of business premises built on the street alignment where such premises do not abut on a suitable right-of-way or land on which such receptacle could be placed for collection and emptying.

14. The contractor or person authorized or employed by the Council for the removal of such refuse shall be responsible for the complete emptying (without spilling any of the contents) of such receptacle or receptacles directly into a vehicle provided for its reception.

Such contractor or person shall also be responsible for the replacement of such receptacle properly covered with its lid, and shall also close the gate or gates of the premises from which such receptacle is taken.

15. The contractor or person authorized or employed by the Council for the removal of such refuse shall at least once in each week, or at such greater frequency as the Council directs, collect and remove such refuse in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness.

16. Such vehicle shall be provided with a cover and kept covered except when refuse is being put into or discharged from such vehicle.

17. Such vehicle shall as far as practicable be rendered watertight by means of an impervious lining or by painting the inside thereof with tar or by other suitable and effective means.

18. The person in charge of such vehicle shall cause it to be taken when full by the shortest practicable route to the tip, incinerator, or destructor.

19. The contractor or person authorized or employed by the Council for the removal of such refuse shall cause all vehicles used for the reception and removal of such refuse to be properly constructed, kept clean, and thoroughly disinfected with approved disinfectant, and maintained in a proper state of repair.

20. The contractor appointed by Council, or any other person or persons, shall tip refuse, to the approval of the duly appointed officers of the Council, over the face of the refuse tip. Penalty for failure to carry out this clause shall render offenders liable to a penalty not exceeding £10.

21. Where refuse is authorized to be disposed of at a tip the proprietor thereof shall cause it to be deposited and covered in accordance with Schedule 4 of the General Sanitary Regulations 1950 or any amendment thereof.

22. Land upon which refuse has been deposited shall be seasonably planted or sown with seed of grass or any forage or cereal crops or other such vegetable life as the Council shall direct or approve.

23. If any person or persons commit a breach of this By-law, he or they shall for every breach be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence a further daily penalty of not more than Five pounds.
