1. The Regulations made by the Commissioners on the 8th August, 1956, approved by the Governor in Council on 4th September, 1956, and published in the *Government Gazette* on the 17th September, 1956, and any amendment thereto, are hereinafter referred to as "the Principal Regulations."

2. After Regulation No. 143 of the Principal Regulations insert the following new Regulation No. 143A:—

"143A:

"1. This Regulation shall apply to Appleton Dock Berths 'E' and 'F' (in this Regulation hereinafter called 'the Appleton Berths').

"2. The Master Owner or Agent of every vessel from which coal or other bulk cargo is to be discharged at either of the Appleton Berths shall at least 48 hours before the arrival of the vessel notify the Harbor Master in writing of its expected time of arrival at the berth and of the quantity and nature of the goods to be discharged at the berth for delivery by rail and road respectively and of the name and address or names and addresses of the consignee or consignees thereof.

"3. (1) All coal or other bulk cargo discharged at either of the Appleton Berths and landed in the wharf dumping area at that berth for delivery by road shall be removed from the said wharf dumping area to the storage site provided by the Commissioners at the rear of such berth.

"Such removal shall be effected—

"(a) Unless the Harbor Master shall otherwise direct at the rate of not less than 1,000 tons per day exclusive of any quantity delivered to or to the order of the Owner thereof direct from the vessel or from the said wharf dumping area but if less than 1,000 tons per day (exclusive of the amount delivered to or to the order of the Owner direct from the vessel or from the wharf dumping area as aforesaid) be discharged the whole quantity discharged shall be so removed.

"(b) If notice in writing specifying the time within which all such coal or other bulk cargo shall be so removed be given by the Harbor Master—within the time specified in such notice.

"3. (2) Should any coal or other bulk cargo be not removed from the said wharf dumping area within the time specified in the notice given by the Harbor Master pursuant to the provisions of paragraph (b) immediately above, then the following provisions shall apply:—

(i) There shall be payable by the Owner as and by way of storage fees in respect thereof the sum of One shilling per ton for each day or part of a day during which any such coal or other bulk cargo remains on the said wharf dumping area.

(ii) The Harbor Master may at any time without notice remove such coal or other bulk cargo from the said wharf dumping area to the said storage site. The Owner shall pay all charges and expenses of such removal and the coal or other bulk cargo shall during the course of such removal and whilst upon the said storage site be and remain always at the sole risk of the Owner.

"4. All coal or other bulk cargo removed howsoever pursuant to the provisions of sub-regulation 3 immediately above from the wharf dumping area to the storage site shall be removed from the said storage site:—

"(a) If notice requiring removal be delivered by the Harbor Master to the Owner, Consignee or person claiming a right thereto—within the time specified in such notice.

"(b) In any other case—within three days after the vessel from which such coal or other bulk cargo was landed has ceased discharging cargo at the berth where such coal or other bulk cargo was landed or within such further time as the Harbor Master may have in writing approved.

"5. To all coal or other bulk cargo removed howsoever pursuant to the provisions of sub-regulation 3 hereof from the wharf dumping area to the storage site the provisions of Regulations 144 and 145 shall apply in all respects as though:—

(i) In Regulation 144 in the first line after the word 'removed' there appeared the words 'from any storage site at Appleton Dock Berths 'E' and 'F'.'
and

(ii) In Regulation 144 in the fourth line after the word 'landed' there appeared the words 'or within such further time as the Harbor Master may pursuant to Regulation 143A 4 (b) have approved.'
and

(iii) In both Regulations for the word 'goods' wherever appearing there were substituted the words 'coal or other bulk cargo' and for the word 'wharf' wherever appearing there were substituted the words 'storage site at either of the Appleton Dock Berths 'E' and 'F'.'

"6. Regulation 140 shall not apply to a vessel discharging coal or other bulk cargo at the Appleton Berths but the Master of every such vessel shall, unless and then only to the extent to which the Harbor Master shall otherwise have approved in writing, cause the loading or unloading of the vessel to be proceeded with vigorously and without any intermission day or night and to the Harbor Master's satisfaction and shall render all necessary facilities material and gear to permit of expeditious loading or unloading.

"7. Coal or other bulk cargo which is discharged at either of the Appleton Berths for delivery by rail shall be discharged direct into railway trucks and not onto the said wharf dumping area. Provided that if through no fault of the Owner of such goods or the Master Owner or Agent of the vessel the supplier of the railway trucks is unable to supply sufficient railway trucks to take the whole quantity discharged then any quantity which cannot for that reason be discharged direct into railway trucks may be discharged onto the said wharf dumping area and the provisions of this Regulation shall then apply in all respects as though such coal or other bulk cargo had been landed for delivery by road."

3. Regulation No. 145 of the Principal Regulations is amended as follows:—

"In line 7 after the figures '143' and before the word 'or' insert the figures '143A'."

IN pursuance of the powers contained in the *Health Act* 1956, and of any other powers thereunto enabling it in that behalf, the Council of the Shire of Deakin, in the name and on behalf of the President, Councillors and Ratepayers of the said Shire, for the purpose of carrying the said Act into execution within its jurisdiction, makes the following By-law (that is to say):—

1. All former By-laws so far as they relate to the matters and things provided for in this By-law are hereby repealed.

2. This By-law shall apply to and have operation in the Township of Tongala.

3. In this By-law, unless inconsistent with the context or subject-matter—

"Proprietor" means the proprietor of any premises, and includes the owner, the occupier, or any person having the management or control thereof.

"Refuse" includes all wastes (except sewerage and manure) produced or accumulated in or about any house, building or premises.

"Inspector" means any officer authorized by the Council, and includes any acting or assistant inspector.

4. The proprietor of every house, building or premises shall provide, keep, and maintain at all times upon his premises a properly constructed receptacle in which he shall from time to time cause to be deposited all refuse produced or accumulated in or about such house, building, or premises.

5. Such receptacle shall be constructed of galvanized iron of not less than 24 gauge or other approved material in such a manner as to prevent any absorption by any part of such receptacle of any offensive matter which may be deposited therein, or any escape by leaking or otherwise of any part of the contents, of such receptacle.

6. Each such receptacle shall have a capacity of not more than 2 cubic feet, and shall be so constructed as to be capable of being easily and conveniently carried by one man.

7. It shall be strongly constructed and provided with properly attached side-lifting handles.

8. Such receptacle shall be provided with a suitable close-fitting lid with a flange overlapping the top of such receptacle, and shall be kept constantly covered (except when such refuse is being deposited therein or discharged therefrom), and a sufficient quantity of some efficient deodorant shall be from time to time introduced therein when necessary to keep such refuse in an inoffensive condition.

10. The proprietor shall cause such receptacle to be kept at all times in good order and sweet condition, and shall coat the inside of such receptacle with tar or other suitable substance when deemed necessary by the Council's Inspector.

11. The proprietor shall cause at such hours and on such days as may be appointed by the Council for the removal of refuse such receptacle to be deposited close to and inside of the entrance to such house, building, or premises from the street, lane, or right-of-way on which such house, building, or premises abut in order that the contents of such receptacle may be conveniently removed by the contractor or person authorized or employed in that behalf by the Council.

12. No person shall place or cause to be placed any such receptacle in or upon any street, lane, or right-of-way except in the case of business premises built on the street alignment where such premises do not abut on a suitable right-of-way or land on which such receptacle could be placed for collection and emptying.

13. Whenever any trade refuse has accumulated in or about any shop or business premises in such quantity or in such manner as would render inconvenient the removal of such trade refuse in the manner prescribed by the By-law by the contractor or other person authorized in that behalf by the Council, the proprietor of such premises shall upon being required so to do by the Inspector forthwith remove such trade refuse to the tip, incinerator, destructor or depot appointed or ordinarily used by the Council for the reception of such rubbish. The provisions of this clause shall not be deemed to limit the liability of such proprietor under any other provisions contained in this By-law.

14. The contractor or person authorized or employed by the Council for the removal of such refuse shall be responsible for the complete emptying (without spilling any of the contents) of such receptacle or receptacles directly into a vehicle provided for its reception at such hours and on such days as may be appointed by the Council.

Such contractor or person shall also be responsible for the replacement of such receptacle properly covered with its lid, and shall also close the gate or gates of the premises from which such receptacle is taken.

15. The contractor or person authorized or employed by the Council for the removal of such refuse shall at least once in each week, or at such greater frequency as may be necessary, collect and remove such refuse in a suitable covered vehicle in such a manner as not to cause nuisance, danger to health, or offensiveness.

16. Such vehicle shall be provided with a cover and kept covered except when refuse is being put into or discharged from such vehicle.

17. Such vehicle shall as far as practicable be rendered watertight by means of an impervious lining or by painting the inside thereof with tar or by other suitable and effective means.

18. Such vehicle when full shall be taken by the quickest possible route to the approved tip, incinerator, or destructor, where, as soon as practicable, the refuse shall be rendered innocuous by means of fire or by some other method as may be approved by the Council or, in the case of a tip owned or conducted by the Council, by a method as may be approved by the Commission, and in such manner as not to create a nuisance.

19. The contractor or person authorized or employed by the Council for the removal of such refuse shall cause all vehicles used for the reception and removal of such refuse to be properly constructed, kept clean, and thoroughly disinfected with approved disinfectant and maintained in a proper state of repair.

20. The Council shall cause all refuse from any premises to be disposed of in an efficient, proper, and sanitary manner at an approved tip, incinerator, or destructor, and no person shall dispose of such refuse at such tip, incinerator, or destructor, and in such manner as not to create a nuisance.

21. The Council's Inspector shall have full power to enter in or upon any premises, yards, or land at any time for the purpose of inspecting receptacles, vehicles, plant, places and all other things therein and thereon for the purpose of carrying out the provisions of this By-law.

22. If any person or persons commit a breach of this By-law, he or they shall for every such breach be liable to a penalty of not more than Twenty pounds, and in the case of a continuing offence of a further daily penalty of not more than Five pounds.
