The maximum quantity of water to be supplied in any one year without further charge to any property rated by the Trust is hereby fixed at the quantity which, at a charge of Fifteen Cents per 1,000 gallons, would produce an amount equal to the amount of the rate levied on such property for the said year.

The charge for water supplied by measure to any property rated by the Trust in excess of such maximum quantity, computed as in the last preceding clause, is hereby fixed at Fifteen Cents per 1,000 gallons.

5. If any rateable property which is unsewered at the time of the making of the aforesaid rate becomes during the year 1966 a "sewered property" there shall be levied upon such property a proportionate part of the sewerage rate for the portion of the year after it has become a sewered property, and such property shall be deemed to have been lawfully rated accordingly.

6. For making and levying such rate the valuation for the time being of such lands and tenements for the municipal rate of the municipality in the municipal district of which such lands and tenements are situate, shall be deemed and taken to be the valuation of such lands and tenements respectively; but if any such lands are not included in a valuation in force for the municipality in whose district they are situate, or if there is no such valuation, the net annual value thereof may for all purposes of such rate be determined in the manner provided in the Sewerage Districts Acts.
