Whereas by section 25 of the *Vegetation and Vine Diseases Act 1958* (No. 6407), it is provided that where the Governor in Council is of opinion that it is necessary to protect the fruit industry of Victoria against the introduction or spread of the insects of the family Trypetidae (commonly known as fruit flies), he may by Proclamation declare any portion of Victoria specified therein to be a proclaimed area, and prohibit the planting on any land in the proclaimed area of any tree, plant or vegetable specified, and prohibit the removal from any place in the proclaimed area to any place outside that area or from any place in the proclaimed area to any other place in that area of any fruit fly or any fruit or vegetables of a kind or species which in his opinion may provide a host for fruit flies or any package which has or is reasonably suspected of having contained such fruit or vegetables and require occupiers and owners of land in the proclaimed area to take such action for the eradication or prevention of the spread of fruit fly as is specified in the Proclamation: Now therefore, I, the Governor of the State of Victoria, in the Commonwealth of Australia, being of opinion that it is necessary to protect the fruit industry of Victoria against the introduction or spread of the insects of the family Trypetidae (commonly known as fruit flies) and by and with the advice of the Executive Council of the said State, do by this my Proclamation hereby—

(ii) that when such a hedge has been cut back to within the foregoing dimensions, he shall thoroughly spray it forthwith to cover all parts of the plants forming the hedge with a solution containing two thousand (2,000) parts of two-four Dichloro-phenoxy-acetic acid (2-4D), or one of its derivatives to one million (1,000,000) parts of water (0.2 per cent.) and he shall spray it thereafter as often as is necessary to prevent the plants from forming fruit,
