Whereas by section 25 of the *Vegetation and Vine Diseases Act 1958 (No. 6407)*, it is provided that where the Governor in Council is of opinion that it is necessary to protect the fruit industry of Victoria against the introduction or spread of the insects of the family Trypetidae (commonly known as fruit flies), he may by Proclamation declare any portion of Victoria specified therein to be a proclaimed area, and prohibit the planting on any land in the proclaimed area of any tree, plant or vegetable specified and prohibit the removal from any place in the proclaimed area to any place outside that area or from any place in the proclaimed area to any other place in that area of any fruit fly or any fruit or vegetables of a kind or species which in his opinion may provide a host for fruit flies or any package which has or is reasonably suspected of having contained such fruit or vegetables and require occupiers and owners of land in the proclaimed area to take such action for the eradication or prevention of the spread of fruit fly as is specified in the Proclamation: Now therefore, I, the Lieutenant-Governor as Deputy for the Governor of the State of Victoria, in the Commonwealth of Australia, being of opinion that it is necessary to protect the fruit industry of Victoria against the introduction or spread of the insects of the family Trypetidae (commonly known as fruit flies) and by and with the advice of the Executive Council of the said State, do by this my Proclamation hereby—

3. Require occupiers and owners of land, not being a commercial orchard, in the proclaimed area to—

or

(i) that the hedge is cut back forthwith and periodically as necessary to retain it within a height not exceeding six (6) feet from the ground level and a width not exceeding two (2) feet, and

(ii) that when such a hedge has been cut back to within the foregoing dimensions, he shall thoroughly spray it forthwith to cover all parts of the plants forming the hedge with a solution containing two thousand (2,000) parts of two-four Dichlorophenoxy-acetic acid (2.4D), or one of its derivatives to one million (1,000,000) parts of water (0.2 per cent.) and he shall spray it thereafter as often as is necessary to prevent the plants from forming fruit, and refrain from planting such plants while this Proclamation remains in force.

(b) To remove from all trees and plants growing upon the said land and to pick up from the said land all fruits and vegetables of the kinds and species named in the Second Schedule to this Proclamation, including all such fruits and vegetables which shall form on such trees and plants after the service of the said notice during such time as this Proclamation remains in force.

(c) To dispose of all such fruits and/or vegetables by boiling for fifteen (15) minutes, or burning them so as to destroy all eggs and larvae of the fruit fly or burying them under a depth of soil at least three (3) feet after having applied to the upper layer of such buried fruit or vegetables a dust containing 1 per cent. of the pure gamma isomer of Benzene hexachloride at the rate of not less than two (2) ounces per square yard, and/or by giving such other treatment as is specified in the said notice, in such a manner as to kill all eggs, larvae and pupae of fruit flies.

(d) To spray all trees and plants growing on the said land not being a commercial orchard as provided under section 3 (a) of this Proclamation, or in the case of a commercial orchard with a power spraying plant approved by an Inspector, with a solution containing six hundred (600) parts of fenthion or dimethoate

(e) To treat the soil beneath and around trees and plants known or suspected by an Inspector to be infested or to have been infested with fruit fly by applying uniformly to the surface of an area or areas marked by an Inspector a dust containing 1 per cent. of the pure gamma isomer of Benzene hexachloride at the rate of not less than two (2) ounces per square yard, and/or by giving such other treatment as is specified in the said notice.

(f) To reduce the size and height of trees and plants (except for fruit trees growing in a commercial orchard) to a size and height which will in the opinion of an Inspector enable effective spraying, stripping and other treatment of such trees and plants to be carried out.

(g) To apply to an Inspector for a permit to remove from any place within the proclaimed area to any place outside that area or to any other place in that area any plant or soil and to refrain from such removal until a permit is granted.

5. Require occupiers and owners of land in the proclaimed area to give access to such land at all times to an Inspector with or without assistants for the purpose of inspection and/or applying on such properties any spray material and/or for the purpose of removing any fruit or vegetables or prohibited plant, and/or performing such other acts which in the opinion of an Inspector are necessary for the eradication or prevention of the spread of fruit flies.
