Labour and Industry Act 1958.

ORDER OF EXEMPTION UNDER SECTION 80A.

Whereas, pursuant to section 80A of the *Labour and Industry Act 1958* as amended by the *Labour and Industry (Amendment) Act 1965*, the Council of the City of Castlemaine has applied to the Minister for an order exempting shopkeepers of shops in its municipal district from being required to close and keep closed their shops in accordance with the provisions of Part VI. of the said Act:

And whereas I have considered the report of the Minister of Tourism obtained in accordance with the provisions of sub-section (4) of section 80A of the said Act:

Now therefore, I, John Frederick Rossiter, Her Majesty's Acting Minister of Labour and Industry in the State of Victoria, do pursuant to the aforesaid section 80A of the *Labour and Industry Act 1958* make this Order granting exemption to any shopkeeper within the area mentioned in the First Schedule hereto from being required to close and keep closed his shop, at any time when he would but for this Order be required to close and keep closed that shop in accordance with Part VI. of the said Act between the hours of 9 a.m. and 9 p.m. during the periods of the year mentioned in the Second Schedule hereto:

Provided that such exemption shall not apply to Christmas Day.

FIRST SCHEDULE—THE AREA. The City of Castlemaine.

SECOND SCHEDULE—THE PERIODS.

1. Eight weeks commencing with the second week in December.

2. Seven weeks commencing with the second week in March, but excluding Good Friday, and excluding Anzac Day if the latter should fall within that period.

Dated at Melbourne this 20th day of June, 1974.

J. F. ROSSITER,
 Acting Minister of Labour and Industry.

LOCAL GOVERNMENT DEPARTMENT.

At the Executive Council Chamber, Melbourne, the
twenty-fifth day of June, 1974.

PRESENT:

His Excellency the Governor of Victoria.
Mr. Rossiter | Mr. Scanlan.

ROAD DISCONTINUED.—CITY OF PRAHRAN.

Whereas it is provided in section 528 (2) of the *Local Government Act 1958*, that where a road (whether or not a public highway but not being a road set out on land of the Crown) or any part thereof is not required for public use the Governor in Council on the request of the Council of the municipality in which such road is situated made not less than one month after publishing in a newspaper generally circulating in the district and posting to the registered proprietor (if any) of the land and the owners and occupiers (if any) of the lands abutting or immediately adjacent to the road notice of intention to make such request may by Order published in the *Government Gazette* direct that such road or part shall be discontinued and thereupon such road or part shall be discontinued accordingly:

And whereas the Council of the City of Prahran has requested that the Governor in Council direct that a portion of a road at the rear of 6-10A Chapel Street, Windsor be discontinued and not less than one month previously has published in a newspaper generally circulating in the district and posted to the registered proprietor of the land in the portion of the road and to the owners and occupiers of lands abutting or immediately adjacent to the portion of road notice of intention to make such request.

Now therefore, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council thereof hereby directs:—

- that the said portion of road, which is shown by hachure on the plan hereunder, shall be discontinued;
- that notwithstanding such discontinuance the Melbourne and Metropolitan Board of Works shall continue to have and possess the same right title power authority or interest in or in relation to the whole of the land as it had or possessed, prior to such discontinuance with respect to or in connection with any drains or

- pipes laid or erected in on or over such land for the purposes of drainage or sewerage; and
- (c) that subject to any such right title power authority or interests, the land in the said portion of road may be sold by the Council of the City of Prahran by agreement.

And the Honorable Roberts Christian Dunstan, Her Majesty's Acting Minister for Local Government for the State of Victoria, shall give the necessary directions herein accordingly.

CITY OF DANDENONG.

BY-LAW No. 48.

A By-Law of the City of Dandenong made under the provisions of the *Local Government Act 1958* and numbered 48 for prohibiting and regulating the use of motorized vehicles for recreational purposes on certain land.

In pursuance of the powers conferred by the *Local Government Act 1958* and of every other power it thereunto enabling the Mayor, Councillors and Citizens of the City of Dandenong order as follows—

1. In this By-Law—

“Council” means the Council of the Mayor, Councillors and Citizens of the City of Dandenong.

“Land” means any land other than a highway or private street or road or public land within the meaning of the *Land Conservation Act 1970* and includes any public place as defined in the *Recreation Vehicles Act 1973*.

“Motorized Vehicle” includes any mini bike, trail bike, motor bike, motor car, motor scooter, go-cart and any recreation vehicle within the meaning of the *Recreation Vehicles Act 1973*.

“Residential Land” means any land which is

- (a) within a residential zone under the Melbourne Metropolitan Planning Scheme (including any amendments thereto).
- (b) zoned for residential purposes pursuant to any other Planning Scheme or Interim Development Order in force from time to time and affecting the same, or
- (c) within 100 metres of the nearest point of any other land which is,
 - (i) within a residential zone under the Melbourne Metropolitan Planning Scheme (including any amendments thereto),
 - (ii) zoned for residential purposes pursuant to any other Planning Scheme or Interim Development Order in force from time to time and affecting the same.

“Town Clerk” means the Town Clerk to the Council of the Mayor Councillors and Citizens of the City of Dandenong.

2. No person shall use any motorized vehicle for recreational purposes on residential land.

3. No person unless he is the holder of a permit in writing issued to him by the Council pursuant to this By-Law, nor otherwise than in accordance with the conditions of any such permit, shall use any motorized vehicle for recreational purposes on any land which is not residential land.

4. Any person desirous of obtaining a permit under the terms of this By-Law shall apply in writing to the Council in the form set out in the First Schedule hereto.

5. (a) Before considering any such application the Council may require the applicant to give notice of the same as hereinafter set out to any person or persons whom the Council considers may be detrimentally affected by the granting of such application or to publish notice of the application in such manner and within such time as it specifies or both to give and publish notice as aforesaid.

(b) Every notice given or published pursuant to sub-clause (a) hereof shall consist of a true copy of the application lodged with the Council but shall in addition contain an indication that the Council will consider such application after the expiration of fourteen days following the giving or publication of such notice and that all persons who may be affected by the granting of such application may send to the Council statements in writing of any objections they may have to the granting of the application and all such statements received within the said period of fourteen days will be taken into consideration in the determination of the application.

6. Where the Council has required the giving or publication of notice as aforesaid it shall not further consider the application until it is satisfied that such notice has been duly given or published and that at least fourteen days have elapsed after the giving or publication of the notice.

7. Every such application shall be considered by the Council together with any objections to the granting of the permit received by it up to the time of making its determination and the Council may in its discretion grant or refuse the permit applied for.

8. Any permit granted pursuant to this By-Law shall be in writing under the hand of the Town Clerk shall specify the land to which it relates and may contain any conditions which the Council may think proper relating to the duration of the permit and the hours during which motorized vehicles shall be used thereon for recreational purposes and such other conditions as the Council may think proper.

9. Notwithstanding anything hereinbefore contained if the Council is satisfied that there has been any failure of compliance with any of the conditions of a permit the Council may revoke the same and it shall thereafter have no force or effect.

10. No person shall on any land drive any motorized vehicle for recreational purposes—

- (a) which has not securely fixed to the engine thereof a silencing device so constructed that all the exhaust from such engine shall pass through such silencing device in such a manner as shall effectively prevent undue noise; or
- (b) which has attached thereto a cut-out or any device capable of producing an open exhaust; or
- (c) which causes undue noise by reason of—
 - (i) being in a state of disrepair;
 - (ii) the manner in which such recreation vehicle is loaded or driven;
 - (iii) the construction or condition or adjustment of the machinery of such recreation vehicle; or
 - (iv) the construction or adjustment or condition of the silencing device.

11. Any person guilty of any wilful act or default contrary to this By-Law shall be liable to a penalty of not more than \$100 and any person guilty of a continuing offence against this By-Law shall be liable to a penalty of not more than \$10 for each day on which an offence against this By-Law is continued after a conviction or order by any Court.

12. This By-Law shall apply to and have operation throughout the whole of the municipal district of the City of Dandenong.

4. (a) Before considering any such application the Council may require the applicant to give notice of the same as hereinafter set out to any person or persons whom the Council considers may be detrimentally affected by the granting of such application or to publish notice of the application in such manner and within such time as it specifies or both to give or publish notice as aforesaid.

(b) Every notice given or published pursuant to sub-clause (a) hereof shall consist of a true copy of the application lodged with the Council but shall in addition contain an indication that the Council will consider such application after the expiration of fourteen days following the giving or publication of such notice and that all persons who may be affected by the granting of such application may send to the Council statements in writing of any objections they may have to the granting of the application and all such statements received within the said period of fourteen days will be taken into consideration in the determination of the application.

5. Where the Council has required the giving or publication of notice as aforesaid it shall not further consider the application until it is satisfied that such notice has been duly given or published and that at least fourteen days have elapsed after the giving or publication of the notice.

6. Every such application shall be considered by the Council together with any objections to the granting of the permit received by it up to the time of making its determination and the Council may in its discretion grant or refuse the permit applied for.

7. Any permit granted pursuant to this By-Law shall be in writing under the hand of the Town Clerk shall specify the land to which it relates and may contain any conditions which the Council may think proper relating to the duration of the permit and the hours during which motorized vehicles shall be used thereon for recreational purposes and such other conditions as the Council may think proper.

8. Notwithstanding anything hereinbefore contained if the Council is satisfied that there has been any failure of compliance with any of the conditions of a permit the Council may revoke the same and it shall thereafter have no force or effect.

9. No person shall on any land drive any motorized vehicle for recreational purposes—

- (a) which has not securely fixed to the engine thereof a silencing device so constructed that all the exhaust from such engine shall pass through such silencing device in such a manner as shall effectively prevent undue noise; or
- (b) which has attached thereto a cut-out or any device capable of producing an open exhaust; or
- (c) which causes undue noise by reason of—
 - (i) being in a state of disrepair;
 - (ii) the manner in which such recreation vehicle is loaded or driven;
 - (iii) the construction or condition or adjustment of the machinery of such recreation vehicle; or
 - (iv) the construction or adjustment or condition of the silencing device.

10. Any person guilty of any wilful act or default contrary to this By-Law shall be liable to a penalty of not more than \$100 and any person guilty of a continuing offence against this By-Law shall be liable to a penalty of not more than \$10 for each day on which an offence against this By-Law is continued after a conviction or order by any Court.

11. This By-Law except as otherwise herein expressly provided shall apply to and have operation throughout the whole of the municipal district of the City of Springvale.

STATUTORY RULES 1974.

No. 251.

Marine Act 1958.

PORT RULE (DANGEROUS GOODS AND OIL IN PORTS) 1974.

PROCLAMATION

By His Excellency the Governor of the State of Victoria and its Dependencies in the Commonwealth of Australia, &c., &c., &c.

WHEREAS by Part II. of the *Marine Act 1958*, it is amongst other things enacted that the Governor in Council, by Proclamation published in the *Government Gazette*, may from time to time define the limits and boundaries of ports in Victoria, and frame rules and regulations for the governance and preservation of the said ports respectively, and for the regulation of shipping in the same, and also for the due protection and preservation and the good government and management of all public wharves: And that any such regulation may from time to time be in like manner altered, amended or repealed and other substituted in their stead: Now, therefore, I, the Governor of the State of Victoria in the Commonwealth of Australia by and with the advice of the Executive Council thereof, and in exercise of the powers conferred by the said Act and all other powers thereunto enabling do by this Proclamation repeal Port Rules 113, 114, 115, 116 and 117 published in the *Government Gazette* of 3rd December, 1913 and Port Rule 117A published in the *Government Gazette* of 5th February 1941 and amended in the *Government Gazette* of 13th July 1955 and substitute the following in their stead, that is to say:—

PART I.—APPLICATION AND DEFINITIONS.

1.1 *Application and Citation.*—This Rule may be cited as Port Rule (Dangerous Goods and Oil in Ports) 1974 and shall be numbered Port Rule 113, and shall come into operation on the First day of September 1974.

No. 66.—5862/74.—PRICE 70 cents

1.2 *Exemptions.*—Notwithstanding anything contained in this Rule, the Port Officer in any case in which in his opinion the public safety will not be prejudiced may grant exemption in writing to any persons from complying with any of the requirements hereof and such exemption may be for such term, to such extent and subject to such restrictions, limitations and conditions as are required by the Port Officer and are contained or referred to in the exemption.

1.3 *Definitions.*—In this Rule unless inconsistent with the context or subject matter—

“Act” means the *Marine Act 1958* and any amendments thereto.

“Approved Electric Lamp” means an electric lamp approved for use in inflammable vapours by the Commonwealth Minister of Transport, the British Department of Trade and Industry or the American Bureau of Standards or a lamp which complies with the specifications of the Australian Standard Specification C 99 of 1970.

“Approved Safety Lamp” means a safety lamp approved for use in inflammable vapours by the Commonwealth Minister of Transport, the British Department of Trade and Industry or the American Bureau of Standards or a lamp which complies with specifications of the Australian Standard Specification C 376 of 1968.

“Battened Down” means any method of securely closing to make gastight as far practicable any hatchway.

“Competent Chemist” for the purpose of this Rule means a person approved in writing by the Port Officer and who is a corporate member of the Royal Australian Chemical Institute or of the Royal Institute of Chemistry of Great Britain and Ireland with special knowledge of inflammable liquids, oils and dangerous goods and who is qualified to determine whether construction, alteration, maintenance, repair or ship-breaking to a vessel can be undertaken with safety or any other similarly qualified person approved in writing by the Port Officer.

“Container” means a crate or box which is specifically constructed for permanent and continuous use as an adjunct to handling goods and which is of a type approved by the Port Officer for this purpose.

“Dangerous Goods” means goods listed in Schedule IX and include all the goods listed in the Red Book and any other goods specified by the Minister to be dangerous goods for the purpose of this Rule.

“Depot” means an area separate from a terminal where goods may be packed or unpacked, stored or assembled prior to delivery to or subsequent to receipt from a terminal, wharf or vessel.

“Fire” means every description of fire and means of ignition.

“Flash Point” means the temperature at which a liquid gives off a vapour that will take fire or explode if mixed with air and exposed momentarily to a naked light; this temperature being determined by the methods specified in the Red Book.

“Gangway” means any thoroughfare between vessel and wharf.

“Gas” means any gas, vapour, fumes, mists or smoke.

“Gas Free” in relation to a tank or space means that the tank or space has been thoroughly cleaned and ventilated in accordance with the requirements of this Rule and has been tested and certified in the form of the Schedule VIII of this Rule by a Competent Chemist to be “Safe for Men—Safe for Hot Work” as defined in clause 2.40 of Part 2 of this Rule.

"Gas Tanker" means a vessel which is constructed or adapted for carrying liquefied or compressed gas in bulk and which is classified for this purpose by Lloyd's Register of Shipping or by another recognised Classification Society specified for the purpose of this Rule by the Port Officer.

"Goods" means any cargo, fuel, bunkers, stores, or other commodity intended to be conveyed on a vessel or placed or stored on a wharf.

"Handle or Handling" includes all operations in connection with loading, unloading, stowing or re-stowing of goods.

"Harbor Master" means a Harbor Master, Assistant Harbor Master or other officer duly appointed by the Governor in Council under this or any other Act to act as Harbor Master.

"Harmful Gases Regulations" means the Harmful Gases, Vapours, Fumes, Mists, Smokes and Dusts Regulations 1945 with any amendments thereto made pursuant to the *Health Act* 1958.

"Hatchway" means any hatchway or other opening into a hold not protected to prevent communication of fire.

"Hold" when applied to a vessel means any hold, between deck space, shelter deck space, tank or other covered place where goods may be stowed.

"In Bulk" as applied to oil and liquid or gaseous dangerous goods means such oil and liquid or gaseous dangerous goods kept or conveyed in receptacles of a capacity exceeding 0.4 cubic metres and intended to be transferred by pipe line or hose.

"Inflammable Dangerous Goods" means all dangerous goods possessing a fire risk including any inflammable liquid, inflammable gas, substances which give off inflammable gas, substances which may give off inflammable gas, strong supporters of combustion, oxidising agents, substances which may form easily ignited or detonated mixtures with other substances and substances which are liable to spontaneous combustion.

"Inflammable Gas" means any gas which is capable of burning when ignited in air.

"Inflammable Liquid" means any liquid having a flash point not higher than 61°C and any other liquid specified by the Minister of Public Works by notice published in the *Government Gazette* to be inflammable liquid for the purpose of this Rule.

"Inspector" means any person duly authorized in writing by the Port Officer to act as an Inspector.

"Liquefied Inflammable Gas" means any inflammable gas which for purposes of storage or transportation is normally maintained in the liquid state by pressure or cooling and includes both the liquid and gaseous phases.

"Lower Explosive Limit" means the lowest proportion of inflammable gas which in uniform admixture with air is capable of propagating flame or explosion throughout the mixture such proportion being expressed as parts of the gas by volume in one hundred parts of mixture by volume.

"Master" in reference to any vessel means any person not being a pilot having command or charge of such vessel and includes Owner or Joint Owner or Agent of such vessel.

"Oil" means oil of any description and includes any mixture of oil and water having a flash point exceeding 61°C.

- "Owner" when used in relation to goods includes the Agent of the Owner and also any Consignor, Consignee, Shipper or Agent for the sale or custody, loading or unloading of such goods as well as the Owner thereof and includes also the holder of any Bill of Lading or other document representing such goods and every person having or claiming any right, title or interest thereto or therein.
- "Owner" when used in relation to a vessel includes the Master or any person having lawfully or in fact the command, charge or management thereof for the time being and any person who is the owner jointly with any other person or persons as well as the sole owner.
- "Package" includes every means by which any dangerous goods may be cased, covered, enclosed, contained or packed.
- "Poisonous" or "Harmful" when applied to any substance means a substance in which danger arises from breathing the gas or which is dangerous when taken through the mouth or absorbed through the skin or causes harm to the skin or respiratory organs or is asphyxiating.
- "Port" means any port within the meaning of and subject to the provisions of the *Marine Act 1958* and includes all wharves therein.
- "Port Officer" means the person discharging the duty of Port Officer in Victoria and for the purposes of this Rule includes any person for the time being acting in his stead.
- "Portable Sealed Tank" means a specially constructed dismountable tank or cylinder.
- "Public Dry Dock" means any dry dock, graving dock or slip which is available for hire.
- "Red Book" means the publication titled "The Carriage of Dangerous Goods by Sea" issued in pursuance of the Commonwealth Navigation (Dangerous Goods) Regulations; Statutory Rules 1968 No. 26, 1968 No. 139, 1970 No. 66.
- "State" means State of Victoria.
- "Tank" means any totally enclosed tank, compartment or space which may be used for the conveyance of dangerous goods or oil in bulk.
- "Tanker" means a vessel constructed or adapted for carrying any liquid goods in bulk.
- "Terminal" means an area adjacent to a wharf where goods are stored handled or conveyed in conjunction with the loading and unloading of vessels.
- "Test Certificate" means a certificate of test given by a Competent Chemist in the form or to the effect of the form in Schedule VIII of this Rule.
- "Vessel" means any ship, lighter, barge, boat, raft, craft or vessel of whatever description used for any purpose in navigable waters and includes flying boats, seaplanes, hydroplanes and similar craft.
- "Wharf" means any wharf, quay, jetty, pier, berth, landing place, ramp, stage, platform, slip, basin, siding, dock, wall or other place at which goods can be landed, loaded or unloaded and includes all buildings and other structures on the wharf and the appurtenances of the wharf and the approaches thereto.
- "Wire Gauze" means a gauze made of copper or brass wire of not less than 0.36 millimetres diameter (28 Birmingham Wire Gauge) and having not less than 11 meshes to the lineal centimetre.

1.4 *Classes of Dangerous Goods.*—For the purpose of this Rule, dangerous goods shall be divided into the following classes in accordance with the classes in the Red Book:—

- Class 1 Explosives;
- Class 2 Inflammable Gases—Label 2A
Poisonous Gases—Label 2B
Compressed, Liquefied or Dissolved Gases
which are neither Inflammable nor
Poisonous—Label 2c;
- Class 3 Inflammable Liquids;
- Class 4 (a) Inflammable Solids;
- Class 4 (b) Inflammable Solids or Substances liable to
spontaneous combustion;
- Class 4 (c) Inflammable Solids or Substances which in
contact with water emit inflammable
gases;
- Class 5 (a) Oxidising Substances;
- Class 5 (b) Organic Peroxides;
- Class 6 (a) Poisonous (Toxic) Substances;
- Class 6 (b) Infectious Substances;
- Class 7 Radioactive Substances;
- Class 8 Corrosives;
- Class 9 Miscellaneous Dangerous Substances.

1.5 *Categories of Dangerous Goods.*—For the purpose of this Rule dangerous goods shall be divided into the following categories in accordance with the categories in the Red Book:—

Category A

- (a) Commercial explosives other than Class VI, Division 1 and Class VII, Divisions 2 and 3 as defined in Section 13 of the Red Book;
- (b) Commonwealth Explosives specified in the First Schedule to the Explosives Regulations made under the Commonwealth Explosives Act 1961–1966 except Safety Ammunition in Group 6;
- (c) Radioactive materials—explosive and “Special Arrangement” radioactive material as listed in paragraph 71.8 of the Red Book.

Category B

- (a) Commercial explosives in Class VII, Divisions 2 and 3 as defined in Section 13 of the Red Book;
- (b) Any substance listed in Part II of the Red Book as belonging to Category B.

Category C

- (a) Commercial explosives in Class VI, Division 1 as defined in Section 13 of the Red Book;
- (b) Commercial Explosives that are Safety Ammunition in Group 6 specified in the First Schedule to the Explosives Regulations made under the Commonwealth Explosives Act 1961–66;
- (c) Any substance listed in Part 11 of the Red Book as belonging to Category C.

1.6 *Marking, Packing and Stowing of Dangerous Goods.*—Dangerous goods shall be marked, packed and stowed in accordance with the requirements specified in the Red Book or with the requirements of the Competent Authority in the country or state of origin where such country or state is a Member Government of the Inter-Governmental Maritime Consultative Organization.

1.7 *Substances Possessing Secondary Hazards.*—Where a substance possesses secondary hazards the requirements of this Rule appropriate to such secondary hazards shall also be observed.

**PART 2.—PROVISIONS RELATING TO ALL VESSELS CONVEYING
DANGEROUS GOODS AND OIL AND TO THE HANDLING OF
DANGEROUS GOODS AND OIL.**

Section 1: General Conditions.

2.1 Responsibility for Observance of Rule.—

- (a) The Master, Owner and Agent of a vessel shall except where otherwise expressly provided in this Rule each be responsible for the due performance and observance of this Rule on the vessel and in no case shall the acceptance of responsibility by any relieve the other or others of his or their responsibility.
- (b) The Owner of dangerous goods shall be responsible for ensuring the observance of this Rule on any wharf, terminal, depot, or property within any Port.
- (c) Except where otherwise expressly provided by any Act or law the Owner or Master of a vessel, the Owner, Occupier or Person in Charge of a terminal or depot or storage tank or pipe line or other apparatus as the case may be shall in addition to any other person be liable for the escaping or draining of dangerous goods or oil from any such vessel, terminal, depot, tank, pipe line or apparatus whether directly or indirectly into the waters of any port or on to a vessel or a wharf or any property within any port. If any dangerous goods or oil so escapes or drains, the said Owner, Master, Occupier, Person-in-Charge, Servant or Agent shall each be liable to a penalty.
- (d) All due precautions whether prescribed or not for the prevention of accidents by fire or explosion shall be taken and no act shall be performed or permitted which tends to cause fire or explosion.
- (e) An officer or other person may be stationed by the Port Officer or Harbor Master in the vicinity of a vessel or any goods to see that the requirements of this Rule are carried out.
- (f) The services of such officers shall be at the cost of the owner of the vessel or goods which cost shall be deemed to be a debt to the State.

2.2 Application to Convey, Load or Unload Oil in Bulk or Dangerous Goods—

- (a) Before any vessel having on board oil in bulk or dangerous goods enters a port and before oil in bulk or dangerous goods are handled in any way in a port the Master, Owner or Agent of the vessel or the owner of the dangerous goods or oil shall make to the Port Officer or Harbor Master application to carry out such operations and shall provide full and accurate particulars of such goods in the form set out in Schedule IV and Schedule V of this Rule or in any other manner required by the Port Officer. Full particulars of any damaged or deteriorated packages or containers and any leakage of dangerous goods or oil from any tank, portable sealed tank or the hull of the vessel shall be provided.
- (b) The application and particulars referred to shall be given to the Port Officer or Harbor Master on a normal working day at least 48 hours before the proposed operation and before twelve (12) noon if the day on which the application is to be lodged is a Friday or a day before a Public Holiday.

2.3 *Permission and Conditions for Handling Dangerous Goods or Oil—*

- (a) The Master of a vessel or the owner of oil in bulk or dangerous goods shall not permit oil in bulk or dangerous goods to be handled at any time or in any place or be placed or allowed to remain on any wharf unless a permit in writing in relation thereto has been obtained from the Port Officer or Harbor Master.
- (b) Any such permit shall be subject to the observance of this rule and any other conditions that the Port Officer or Harbor Master consider necessary.
- (c) In the case of intra port traffic the Port Officer may issue a permit in writing for a specific period.

2.4 *Notification of Tanks and Spaces Not Gas Free—*

- (a) The Master, Owner or Agent of a vessel having empty tanks or spaces that previously contained liquid or gaseous dangerous goods in bulk shall unless such tanks or spaces are certified gas free by a Competent Chemist furnish to the Port Officer or Harbor Master full information of the location, nature and quantity of the dangerous goods previously carried.
- (b) Information under paragraph (a) shall be in the form set out in Schedule VI of this Rule and shall be given on a normal working day at least 48 hours before the vessel enters the port and before twelve (12) noon if the day on which the notice is required is a Friday or a day before a Public Holiday.

2.5 *Insurance of Wharves, etc.*—The Port Officer may require the Master, Owner or Agent of any vessel having on board oil in bulk or dangerous goods or having had on board dangerous goods and is not certified gas free or any vessel intending to load oil in bulk or dangerous goods to take out a Policy of Insurance in the name of the Port Officer and the Crown in the right of the State of Victoria against loss of or damage to any property of the State by explosion or fire arising from the combustion or ignition of such oil in bulk or dangerous goods before the vessel occupies a berth at any wharf. Such policy shall be obtained from an Insurance Company approved by the Port Officer and shall be for such amount as the Port Officer requires and for such period as the vessel is at the wharf or any part of the oil in bulk or dangerous goods remains on a wharf owned by the State or within 20 metres thereof. In lieu of such Policy of Insurance the Master, Owner or Agent may with the approval of the Port Officer furnish a Surety Bond or Indemnity in such form and for such amount as the Port Officer requires.

2.6 *List of dangerous goods (required by Schedule V).—*

- (a) In providing any particulars required by this rule commodities referred to under trade names shall be described by the correct technical name or names of the substance or substances they contain.
- (b) Where doubt exists in regard to the nature of goods suspected of being dangerous or damage to or deterioration of the containers or packages has been reported a competent chemist or other appropriately qualified person may be employed by the Port Officer or Harbor Master at the cost of the Owner or Agent of the vessel or the owner of the goods to assist the Port Officer or Harbor Master in deciding upon the action to be taken in regard to such goods.

2.7 *Inspection.—*

- (a) The Master, Owner or Agent of a vessel, the Owner, Occupier or Person in Charge of a terminal or depot or storage tank or pipe line or other apparatus shall facilitate the inspection of a vessel, terminal, depot, storage tank or pipe line or other apparatus by the Port Officer, Harbor Master or a person appointed by the Port Officer.

- (b) Any person who obstructs or interferes with the Port Officer, Harbor Master or a person appointed by the Port Officer in the performance of his duty under this section shall be liable to a penalty.

2.8 Fire Protection Equipment.—

- (a) The Master, Owner or Agent of a vessel having oil in bulk or inflammable dangerous goods on board or having had on board inflammable dangerous goods which is not certified gas free shall ensure that there is installed and maintained in efficient condition on the vessel ready for use sufficient fire protection equipment and any such additional equipment required by the Port Officer or Harbor Master.
- (b) The Owner or Agent of inflammable dangerous goods on a wharf or the Owner, Occupier or Person in Charge of a terminal or depot or storage tank or pipe line or other apparatus shall ensure that there is installed and maintained in efficient condition and ready for use on any wharf on which such dangerous goods are present or at which a vessel with such dangerous goods on board is berthed sufficient fire protection equipment and any such additional equipment required by the Port Officer or Harbor Master.

2.9 Officer to be in charge—engine room staff and crew to be available.—

- (a) The Master of any vessel having oil in bulk or inflammable dangerous goods on board or having had on board inflammable dangerous goods and not certified gas free shall ensure that a responsible officer of the vessel is on duty day and night to give effect to this Rule with competent members of the engine room staff and sufficient crew members available to operate fire pumps or other fire extinguishing apparatus.
- (b) The Master of any vessel with oil in bulk or dangerous goods on board shall have available at all times a sufficient staff of officers and men to ensure the efficient carrying on of any work or to remove the vessel if so required.

2.10 Competent person to be in charge of handling of dangerous goods.—The owner or agent of a vessel or the Owner or Occupier of a terminal or depot or storage tank or pipe line or other apparatus shall ensure that a competent person is in charge of the handling of oil in bulk or dangerous goods and is present at all times that these goods are being handled to give strict supervision to the observance of this Rule.

2.11 Red Flag or red light and warning notices.—The Master of every vessel having on board dangerous goods or having had on board dangerous goods which is not certified gas free shall—

- (a) cause to be displayed when entering port and during the time that such vessel remains in the port by day the International Code flag "B" not less than 900 millimetres square and by night a red light at the mast head or where it can be best seen but not less than 6 metres above the deck in addition to any navigation flags or lights which may be required by any other regulations, rules or by-laws; or
- (b) if the vessel operates solely within a port and cannot normally comply with the requirements of paragraph (a) cause to be displayed, by day in a conspicuous position above the deck, a red flag of metal resembling the International Code flag "B" not less than 600 millimetres square and by night an all round red light using an approved electric or safety lamp; and

- (c) when the vessel is berthed at any wharf or landing place cause to be displayed a notice board at the forward side of the gangway with the words:

DANGER—NO SMOKING
NO NAKED LIGHTS

in conspicuous red lettering not less than 150 millimetres in height on a white background and by night display a red light at the after side of the gangway and a white light at the forward side over the said notice board such lights to be approved electric or safety lamps.

2.12 *Notice boards to be erected.*—No inflammable dangerous goods shall be handled or deposited upon any wharf or in any place within 100 metres thereof until notice boards bearing the words:

DANGER—NO SMOKING
NO NAKED LIGHTS

as described in clause 2.11 have been erected in such conspicuous positions as to be visible from every point of access to such wharf or place. The notice board shall be adequately illuminated with approved electric or safety lamps during the hours of darkness.

2.13 *Smoking and Other Fire Risks.*—In or on any vessel or wharf or any place within 100 metres thereof where inflammable dangerous goods are present or are being handled no person shall except in a location approved by the Port Officer or Harbor Master—

- (a) smoke or have in his possession or under his control any matches, fire or other means of ignition or any light other than an approved safety lamp; or
- (b) create any spark, fire or flame or use any telephone, tool, electrical apparatus or other equipment capable of creating any spark, fire or flame.

2.14 *Powers of the Port Officer or Harbor Master with Respect to Vessels not Carrying Dangerous Goods.*—The Master of any vessel anchored, moored or berthed within 100 metres of a vessel loading, unloading or carrying dangerous goods or having had on board dangerous goods and not certified gas free shall comply with such directions as the Port Officer or Harbor Master deems necessary in the interests of safety.

2.15 *Spillage or Escape of Dangerous Goods or Oil.*—

- (a) The Master, Owner or Agent of a vessel or the Owner, Occupier or Person in Charge of a terminal or depot or storage tank or pipe line or other apparatus shall if a spillage or escape of dangerous goods or oil occurs immediately notify the Port Officer or Harbor Master and in the case of dangerous goods warn all persons in the affected area of such spillage or escape and the substance shall be removed, treated or neutralized as required by the Port Officer or Harbor Master.
- (b) Before the pumping of any dangerous goods or oil commences or before the taking on board or transfer of ballast water into or from tanks that have contained dangerous goods or oil and have not been cleaned the Master of a vessel shall ensure that all scuppers and overside deck openings shall except where otherwise required by this Rule be securely plugged or blocked to prevent the escape of any liquid from the deck into the waters of the Port.

2.16 *Burning Oil or Inflammable Liquid or Refuse on Board.*—The Master of a vessel having oil in bulk or dangerous goods on board or having had dangerous goods on board and which is not certified gas free shall not permit the heating, boiling or burning of any pitch, tar, resin, turpentine, spirits, inflammable liquid, oil, refuse, rubbish or other combustible matter in or on the vessel except in such a place and in such a manner as is approved in writing by the Port Officer or Harbor Master.

2.17 Dry Docking of Vessels with Oil or Dangerous Goods on Board.—

- (a) The Master of a vessel having oil or dangerous goods on board shall apply for special permission from the Port Officer or Harbor Master for the vessel to enter any public dry dock.
- (b) In the case of vessels carrying oil in bulk or liquid or gaseous dangerous goods permission may be granted only on condition that all oil and liquid and gaseous dangerous goods are discharged and all tanks and spaces are certified gas free prior to docking.
- (c) Any oil or dangerous goods contained in packages or portable sealed tanks shall be discharged prior to docking unless the Port Officer or Harbor Master gives special permission for them to remain on board.

2.18 Directions to Cease Loading or Unloading.—

- (a) If in connection with the loading or unloading of any oil in bulk or dangerous goods on or from any vessel insufficient precautions are in the opinion of the Port Officer or Harbor Master being taken for the prevention of accident by fire, explosion or otherwise the Port Officer or Harbor Master may by notice in writing delivered to the Owner, Master or Agent or the person apparently in charge of such vessel order that loading or unloading shall cease until such time as the conditions giving rise to the order and named in the notice are remedied and permission in writing to load or unload such oil in bulk or dangerous goods on or from such vessel has been given by such Port Officer or Harbor Master.
- (b) Loading or unloading shall cease forthwith on instructions from the Port Officer or Harbor Master if in his opinion the person in charge of such loading or unloading is not competent for that purpose. Any person instructed to cease loading or unloading oil in bulk or dangerous goods who continues loading or unloading contrary to such instruction shall be guilty of an offence.

2.19 Removal of Vessel or Goods in Certain Circumstances.—
In the event of any contravention of or failure to comply with the provisions of this Rule or in any emergency or dangerous situation the Port Officer or Harbor Master may cause any vessel or goods to be removed to another part of the port and any costs so incurred shall be a debt due to the State and may be recovered from the Master, Owner or Agent of the vessel or goods:

2.20 Prompt Discharge.—Except with the permission of the Port Officer or Harbor Master no vessel carrying oil in bulk or dangerous goods shall be berthed alongside any wharf unless such vessel is ready to discharge such oil in bulk or dangerous goods and arrangements have been made by the consignee to receive the oil or goods with a minimum of delay.

2.21 Location of Vessels with Dangerous Goods or Oil on Board.—The Master of a vessel having on board oil in bulk or dangerous goods or having had on board oil in bulk or dangerous goods and which is not certified gas free shall not permit the vessel to anchor moor or be within any port except in an anchorage, berth or other place prescribed by the Port Officer or Harbor Master.

2.22 Vehicles and Road Tankers Conveying Oil or Dangerous Goods on Wharves.—The driver of any vehicle or road tanker conveying oil or dangerous goods shall not take the vehicle or road tanker onto any wharf or permit it to remain thereon without the permission in writing of the Port Officer or Harbor Master.

2.23 *Handling Dangerous Goods Near Open Hatches.*—Dangerous goods shall not be handled on any vessel whilst nearby hatches are open or whilst any other goods are being handled except with the prior approval of the Port Officer or Harbor Master.

2.24 *Outside Source of Ignition.*—The Master of any vessel loading or unloading inflammable dangerous goods or the responsible officer referred to in clause 2.9 of this Part or the competent person referred to in clause 2.10 of this Part shall cause the loading or unloading of such dangerous goods to cease forthwith if any source of ignition which constitutes a hazard is observed by any of them or drawn to their attention until such source of ignition is eliminated.

2.25 *Display of Rules.*—A copy of this Rule shall be obtained and placed in a prominent part of the vessel where it can be readily seen and the Master and crew shall be conversant with the requirements herein.

2.26 *Untoward Circumstances.*—If any circumstances arise which in the opinion of the Port Officer or Harbor Master constitute a danger to life or property within a port then the Master, Owner or Agent of a vessel, the Owner of dangerous goods or the Owner, Occupier or Person in Charge of a terminal or depot or storage tank or pipe line or other apparatus as the case may be shall take such action as the Port Officer or Harbor Master deems necessary in the interests of safety.

Section 2 : Tank Cleaning and Gas Freeing.

2.27 *Application.*—The provisions of this Section shall apply to entering, cleaning or gas freeing tanks or spaces or the construction, alteration, repair, shipbreaking or maintenance in or within 100 metres of tanks or spaces that have contained oil in bulk or inflammable or poisonous dangerous goods.

2.28 *Precautions Against Poisonous Gas in Vessels.*—The Master of a vessel shall ensure that—

- (a) no person except for the purpose of testing the atmosphere or for the necessary preliminary cleaning enters a tank or space that has contained oil in bulk or dangerous goods or that has been closed to the outside atmosphere until—
 - (i) a test certificate in the form of Schedule VIII of this Rule designated "Safe for Men—Safe for Hot Work" or "Safe for Men—Safe for Cold Work" and signed by a Competent Chemist has been obtained; and
 - (ii) written permission from the Port Officer or Harbor Master has been given;
- (b) any person who for the purpose of testing the atmosphere or for the necessary preliminary cleaning enters a tank or space on a vessel that has contained oil in bulk or dangerous goods or that has been closed to the outside atmosphere or has been inerted shall—
 - (i) only do so after the tank or space has been cleaned and dangerous gas removed to the maximum extent possible before entry; and
 - (ii) be provided with a suitable breathing apparatus of a self contained compressed air bottle type or air supplied type together with a fireproof life line and have a responsible person in constant attendance outside the tank or space;
- (c) every test certificate or a copy thereof shall be posted as soon as possible in a conspicuous place on the vessel where it can be easily read by all persons concerned.

2.29 Precautions Against Fire and Explosion in Vessels.—
The Master of a vessel shall ensure—

- (a) that no person shall in any tank or space or within 100 metres of any tank or space that has contained oil in bulk or inflammable dangerous goods smoke or create any spark, fire or flame or have in his possession or under his control any matches, fire or other means of ignition any telephone, tool, electrical apparatus or other equipment capable of creating any spark, fire or flame or any light other than an approved safety or electric lamp unless a valid test certificate in the form of Schedule VIII of this Rule designated "Safe for Men—Safe for Hot Work", or "Not Safe for Men—Safe for External Hot Work Only" or "Inerted" or "Water Filled" and signed by a Competent Chemist is in force in respect of such tank or space and written permission from the Port Officer or Harbor Master has been given; and
- (b) that every test certificate or a copy thereof shall be posted as soon as possible in a conspicuous place on the vessel where it can be easily read by all persons concerned.

2.30 Responsibility and Procedures for Obtaining Test Certificate.—The Master of a vessel shall before any person enters a tank or space except for the necessary preliminary cleaning and before any work is carried out in any part of a vessel for which a test certificate is required be responsible for—

- (a) obtaining the services of a Competent Chemist;
- (b) notifying the Competent Chemist in writing in the form of Schedule VII of this Rule of the nature of the dangerous goods last carried in the tank or space and the nature and location of the work intended and the precautions taken;
- (c) advising the Competent Chemist in writing in the form of Schedule VII of this Rule that all particular requirements contained in this Rule and all other necessary precautions for the safety of life and property have been complied with;
- (d) obtaining a test certificate issued by the Competent Chemist which shall be in the form of Schedule VIII of this Rule and which shall be valid for such time as is determined by the Competent Chemist;
- (e) renewal of the test certificate issued by the Competent Chemist prior to the time of expiry of the existing valid certificate;
- (f) obtaining written permission from the Port Officer or Harbor Master for the work to be carried out;
- (g) suspending all work if any pipe or joint in the tank or space is broken or any other risk of dangerous goods or gas entering the tank or space arises until a further test certificate is obtained and written permission from the Port Officer or Harbor Master is given.

2.31 Responsibility for the Observance of Conditions Contained in Test Certificate.—The Master of a vessel shall be responsible for ensuring that all instructions, precautions and requirements stated in the test certificate are strictly observed before, during and after the course of work and in the case of certification authorizing Cold Work only that no Hot Work as defined in clause 2.39 of this Part is performed.

2.32 Form of Test Certificate.—The test certificate shall be in the form of Schedule VIII of this Rule and shall be signed by the Competent Chemist who shall clearly state thereon the period of validity of the certificate and the condition of the tank or space and the type of work he considers safe to be undertaken

as defined in Clauses 2.39 and 2.40 of this Part. The test certificate shall in each instance be countersigned by the Port Officer or Harbor Master before any intended work is commenced or resumed.

2.33 Requirements Before Tank Cleaning and or Gas Freeing.—Before the cleaning or gas freeing of a tank or space is commenced, the Master of a vessel shall obtain permission from the Port Officer or Harbor Master and shall ensure that the following requirements are carried out:—

- (a) No cargo or ballasting operations are being carried out;
- (b) All personnel on the vessel are notified that tank cleaning or gas freeing is about to commence;
- (c) Appropriate warning notices are prominently displayed;
- (d) No unauthorized persons are on board;
- (e) All doors, portholes and other openings to accommodation and other spaces are closed and ventilators trimmed to prevent the entry of dangerous gas;
- (f) All tank lids, tank wash openings, ullage openings, sighting ports and similar fittings other than those required to be used are closed;
- (g) All cargo lines including all deck lines and risers are drained into a selected tank and all cargo lines and stern lines which are not in use are isolated and valves properly closed;
- (h) All cargo lines and valves which are required for use are properly set;
- (i) All sea and overboard discharge valve are closed and sealed when not in use;
- (j) All necessary shore hose connections are properly made and supported;
- (k) No vessel is alongside.

2.34 Tank Cleaning and Gas Freeing Procedures.—The Master of a vessel shall ensure that the following requirements are complied with when cleaning and gas freeing tanks or spaces:—

- (a) When any tank openings are in an enclosed or partially enclosed space any pressure is relieved outside that space;
- (b) Where inert gas is available the system is operated to give a low pressure in the tanks before and during tank washing;
- (c) All pipe lines, cross overs and discharge lines are completely washed through with water after stripping the tanks and all valves properly closed and lines blanked off;
- (d) All cargo pumps are completely washed through with water;
- (e) The tanks or spaces to be cleaned or gas freed are opened to the atmosphere via the proper venting system and the gas valves of all tanks the ventilation system of which is common to those being cleaned are properly closed and blanked off;
- (f) All heating coils are blown through with water or steam;
- (g) Gas ejectors or fans are operated for as long as necessary to remove all dangerous gas and the tanks are properly and adequately ventilated;
- (h) The tank is mopped and all sludge, sediment and scale is removed keeping gas ejectors, fans and ventilators operating;
- (i) All gas and ventilator lines are cleared of dangerous gas and covered with wire gauze as defined in Part 1;
- (j) The lids to openings in tanks containing tank washings are closed;

- (k) The tanks are tested for dangerous gas and oxygen content by the Competent Chemist;
- (l) If the atmosphere in the tank still contains dangerous gas or has insufficient oxygen content additional adequate tank cleaning or ventilation is undertaken and the tank is again tested for dangerous gas and oxygen content by the Competent Chemist;
- (m) Covers are replaced on tank wash openings after use unless the openings are required for gas freeing.

2.35 *Use of Tank Washing Machines.*—The Master of a vessel shall ensure that the following requirements are carried out when using tank washing machines:—

- (a) The bottoms of all tanks are flooded with water through the cargo lines and then stripped dry before the introduction of a tank washing machine into the tank;
- (b) All hoses supplied for use with tank washing machines are tested for electrical continuity before use;
- (c) Both the hose and tank washing machine are flushed with water before being introduced into the tank;
- (d) When being lowered or suspended in a tank the weight of the tank washing machine shall be taken by a rope fastened to the machine and made fast on deck;
- (e) The tank washing machine shall be properly secured to the hose and earthed to the deck through the hose or by means of a separate bonding wire;
- (f) No steam is injected into a tank in which a tank washing machine is suspended;
- (g) If steam has been injected into a tank no tank washing machine is lowered into the tank until all steam has been dispersed.

2.36 *Precautions to be Taken when Steaming Tanks.*—The Master of a vessel shall ensure that the following precautions are taken when steaming tanks or spaces:—

- (a) Steam is only introduced into a tank or space at low velocity through fixed equipment;
- (b) Whilst steam is being injected or is present in a tank no suspended conductor whether insulated or bonded is introduced or allowed to remain in a non gas free tank;
- (c) When caustic soda or other chemicals are used with steam, the tank is subsequently thoroughly washed down and ventilated.

2.37 *Precautions to be Taken for Efficient Ventilation of Tanks.*—The Master of a vessel shall ensure that all tanks and spaces not inerted or water filled are efficiently ventilated after cleaning and gas freeing and effective ventilation is maintained for the whole period of the validity of the test certificate and that all lines through which dangerous goods might enter are kept blanked off to prevent the accumulation of dangerous gas.

2.38 *Precautions to be Taken in Pump Rooms.*—The Master of a vessel shall ensure that the following precautions are taken in pump rooms:—

- (a) Efficient ventilation is always maintained to remove all dangerous gas;
- (b) No liquid or gaseous dangerous goods are allowed to accumulate in pump room bilges;

- (c) All glands are kept tight and are inspected when pumping has commenced and at regular intervals during such operations;
- (d) Persons entering are provided with a suitable breathing apparatus of a self contained compressed air bottle type or air supplied type together with a fireproof life line and that a responsible person is in constant attendance outside the pump room.

2.39 *Test Certificate—Repair Classifications.*—The Competent Chemist shall after he has carried out tests in the prescribed manner indicate on the test certificate in the form of Schedule VIII of this Rule the type of work which he considers can safely be undertaken and the following designations shall be used:—

- (a) "Hot Work" means any construction, alteration, repair, shipbreaking or maintenance involving, riveting, welding, burning, grinding, drilling, sand or shot blasting or similar fire or spark-producing operations;
- (b) "Cold Work" means any construction, alteration, repair, shipbreaking or maintenance which does not involve heat, fire or spark-producing operations.

2.40 *Test Certificate—Standard Safety Designations.*—The Competent Chemist after carrying out the necessary tests shall write on the test certificate which shall be in the form of Schedule VIII of this Rule whichever of the following standard safety designations is appropriate together with any necessary explanatory statements and directions and such standard safety designations shall have the meanings defined in this Clause:—

1. "SAFE FOR MEN—SAFE FOR HOT WORK" means that:—

- (a) In the tank or space so designated—
 - (i) the concentration of any poisonous dangerous goods in the atmosphere is not greater than that prescribed in the Harmful Gases Regulations; and
 - (ii) in the judgment of the Competent Chemist any liquid or solid residues or surface coatings present are not capable of being injurious by contact with or absorption through the skin and are not capable of producing dangerous concentrations of poisonous gas under the prevailing conditions or when heated; and
 - (iii) the oxygen content of the atmosphere is at least 19.0 per cent by volume;
- (b) In the tank or space to designated—
 - (i) the concentration of any inflammable gas is not greater than 1.0 per cent of the lower explosive limit; and
 - (ii) in the judgment of the Competent Chemist all sludge, sediment and scale have been removed as completely as reasonably practicable and any residues remaining are incombustible and are not capable of producing dangerous concentrations of inflammable gas either under the prevailing conditions or when heated;
- (c) All tanks or spaces either directly or diagonally adjacent to the one so designated have been tested by the Competent Chemist and found to be "Safe for Men—Safe for Hot Work", "Not Safe for Men—Safe for External Hot Work Only", "Inerted" or "Water Filled" within the meaning of this clause;

- (d) Where any other tank or space is other than "Safe for Men—Safe for Hot Work" within the meaning of this clause there will not in the judgment of the Competent Chemist be danger of unsafe conditions arising from the creation of any common opening when hot work is performed.

2. "SAFE FOR MEN—SAFE FOR COLD WORK ONLY" means that:—

- (a) In the tank or space so designated—
- (i) the concentration of any poisonous dangerous goods in the atmosphere is not greater than that prescribed in the Harmful Gases Regulations; and
 - (ii) in the judgment of the Competent Chemist any liquid or solid residues or surface coatings present are not capable of being injurious by contact with or absorption through the skin and are not capable of producing dangerous concentrations of poisonous gas under the prevailing conditions and while cold work only is performed; and
 - (iii) the oxygen content of the atmosphere is at least 19.0 per cent by volume;
- (b) In the tank or space so designated—
- (i) the concentration of any inflammable gas is not greater than 3.0 per cent of the lower explosive limit; and
 - (ii) in the judgment of the Competent Chemist all sludge, sediment and loose scale has been removed as completely as reasonably practicable and any residues remaining are incombustible and are not capable of producing dangerous concentrations of inflammable gas under the prevailing conditions and while cold work only is performed;
- (c) Where any other tank or space is other than "Safe for Men—Safe for Hot Work" or "Safe for Men—Safe for Cold Work Only" within the meaning of this clause there will not in the judgment of the Competent Chemist be danger of unsafe conditions arising from the creation of any common opening when cold work is performed.

3. "NOT SAFE FOR MEN—SAFE FOR EXTERNAL HOT WORK ONLY" means that:—

- (a) In the tank or space so designated—
- (i) the concentration of any poisonous dangerous goods is greater than prescribed in the Harmful Gases Regulations; or
 - (ii) there are liquid or solid residues or surface coatings present which in the judgment of the Competent Chemist may be injurious by contact with or absorption through the skin or may be capable of producing dangerous concentrations of poisonous gas, under the prevailing conditions or when heated; or
 - (iii) the oxygen content of the atmosphere is less than 19.0 per cent by volume; or
 - (iv) in the judgment of the Competent Chemist other factors which he specifies on the certificate would make entry hazardous to persons;

- (b) In the tank or space so designated—
 - (i) the concentration of any inflammable gas is not greater than 1·0 per cent of the lower explosive limit; and
 - (ii) in the judgment of the Competent Chemist any liquid or solid residues present are incombustible and are not capable of producing dangerous concentrations of inflammable gas under the prevailing conditions or when heated;
- (c) That there will not in the judgment of the Competent Chemist be danger of unsafe conditions arising from the creation of any opening when hot work is performed in accordance with his directions.

4. "NOT SAFE FOR MEN—NOT SAFE FOR HOT WORK" means that:—

- (a) In the tank or space so designated—
 - (i) the concentration of any poisonous dangerous goods is greater than that prescribed in the Harmful Gases Regulations; or
 - (ii) there are liquid or solid residues present which in the judgment of the Competent Chemist may be injurious by contact with or absorption through the skin or may be capable of producing dangerous concentrations of poisonous gas under the prevailing conditions or when heated; or
 - (iii) the oxygen content of the atmosphere is less than 19·0 per cent by volume; or
 - (iv) in the judgment of the Competent Chemist other factors which he specifies on the certificate would make entry hazardous to persons;
- (b) In the tank or space so designated—
 - (i) the concentration of inflammable gas is greater than 1·0 per cent of the lower explosive limit; or
 - (ii) in the judgment of the Competent Chemist any liquid or solid residues present may be combustible or may be capable of producing dangerous concentrations of inflammable gas when heated;
- (c) The tank or space so designated was not tested because it contained ballast, slops, oil or dangerous goods. In such a case this safety designation shall be followed by a statement explaining the condition which prevented testing.

5. "INERTED" means that in the tank or space so designated nitrogen or other non inflammable gas has been introduced in sufficient volume to maintain the oxygen content of the atmosphere at or below 5·5 per cent by volume or below 50 per cent of the minimum concentration necessary for combustion whichever is the lesser throughout the period of validity of the certificate.

6. "WATER-FILLED" means that the tank or space so designated has been completely filled with water so as to leave no voids.

2.41 *Responsibilities of Competent Chemist.*—When required to issue a test certificate in the form of Schedule VIII of this Rule for a tank or other space the Competent Chemist shall—

- (a) conduct tests to determine the concentration of any inflammable gas;
- (b) conduct tests to determine the concentration of any poisonous or harmful gases which after making due enquiry he may reasonably have cause to believe are present;

- (c) conduct tests to determine the proportion of oxygen in the atmosphere;
- (d) examine the tank or space to determine if any dangerous or potentially dangerous residues remain and that all applicable requirements have been observed;
- (e) issue a test certificate in the form of Schedule VIII of this Rule and indicate in writing on the test certificate—
 - (i) the Standard Safety Designation in accordance with Clause 2.40 of this Part which can in his judgment be assigned with safety and such provisions conditions or limitations as he may require in order to maintain safe conditions in the tanks or spaces certified;
 - (ii) the Repair Classification if any in accordance with Clause 2.39 of this Part which can in his judgment be assigned with safety together with a specific description of the work approved and such provisions conditions or limitations as he may require regarding the methods and equipment to be used in its performance;
 - (iii) the period of validity of the certificate which shall not exceed twenty-four hours and the frequency and type of such additional tests or inspections as he may require to be performed during the period;
- (f) in each case where tanks or spaces are inerted record on the test certificate—
 - (i) the type of gas used;
 - (ii) the means of containing the gas in the tanks;
 - (iii) the method of safe disposal of the gas upon completion of the work;
- (g) ensure that all instruments and equipment used are adequate and efficient for properly conducting the prescribed tests;
- (h) be thoroughly familiar with and observe the requirements of this Rule and the Harmful Gases Regulations.

PART 3.—PROVISION RELATING TO DANGEROUS GOODS IN PACKAGES.

3.1 *Application.*—The Master of a vessel and the person on the wharf in charge of handling or storing dangerous goods in packages shall ensure that such goods are not handled or stored on any vessel or wharf unless the provisions of Part 2 and Part 3 of this Rule are complied with.

3.2 *Marking and Weight of Packages.*—

- (a) The outside of every package containing dangerous goods shall be clearly marked or labelled in English with the name of the dangerous goods contained therein in accordance with the design and rules provided in the Red Book.
- (b) The weight of packages shall be in accordance with the Rules provided in the Red Book.

3.3 *Packages.*—

- (a) All dangerous goods shall be packed in suitable and substantial packages so constructed and closed or fastened as to be totally enclosed on all sides.
- (b) The Master, Owner or Agent of a vessel shall notify the Port Officer or Harbor Master as soon as possible of any damage to or deterioration of packages of dangerous goods and the

Master, Owner or Agent shall cause such damaged or deteriorated packages to be removed immediately from any vessel or wharf in accordance with the conditions required by the Port Officer or Harbor Master.

3.4 Storage on Wharves.—

- (a) Dangerous Goods of Category A and B in the Red Book shall not be stored on any wharf.
- (b) Dangerous Goods of Category C in the Red Book may be stored on a wharf with the approval of the Port Officer or Harbor Master.
- (c) Dangerous Goods which are upon any wharf contrary to the provisions of this Rule may be removed by the Port Officer or Harbor Master and may be stored on behalf of and at the risk and expense of the owner thereof in any place and subject to any conditions which the Port Officer or Harbor Master thinks fit and until such Dangerous Goods are removed a watchman approved by the Port Officer or Harbor Master shall be stationed to guard such goods.

3.5 Hours for Handling Dangerous Goods.—

- (a) Dangerous Goods of Category A in the Red Book shall not in any circumstances be handled on any vessel or wharf between sunset and sunrise.
- (b) Dangerous Goods of Categories B and C in the Red Book may be handled between sunset and sunrise with the written authority of the Port Officer or Harbor Master.
- (c) Any other goods shall not be handled in the vicinity of dangerous goods between sunset and sunrise unless written permission to do so has been obtained from the Port Officer or Harbor Master.

3.6 Smoking and Other Fire Risks.—In or on any vessel or wharf or any other place within 100 metres thereof where inflammable dangerous goods are present or are being handled no person shall except in a location approved by the Port Officer or Harbor Master—

- (a) smoke or have in his possession or under his control any matches, fire or other means of ignition or any light other than an approved safety lamp; or
- (b) create any spark, fire or flame or use any telephone, tool, electrical apparatus or other equipment capable of creating any spark, fire or flame.

3.7 Watchman at Gangway.—In or on any vessel where inflammable dangerous goods are present or are being handled the Master shall ensure that—

- (a) a watchman approved by the Port Officer or Harbor Master is stationed at each gangway leading on to the vessel to prevent smoking, to prevent unauthorized access to the vessel and to warn every person of the presence of such goods; and
- (b) the handling of inflammable dangerous goods shall cease immediately on instructions from the Port Officer or Harbor Master if either considers a watchman unfit for the purposes of this clause and the handling of such goods shall not be resumed until a watchman approved by the Port Officer or Harbor Master is so stationed.

3.8 Display of Notices.—Before the handling of inflammable dangerous goods commences the Master shall cause to be displayed in conspicuous positions, on the vessel and on the gangways to such vessel notices warning the crew and all persons on board or coming on board the vessel that smoking or any practice likely to cause fire is prohibited. The notices shall be adequately illuminated with approved electric or safety lamps during the hours of darkness.

3.9 *Ventilation of Holds for Unloading.*—The Master of a vessel shall cause all holds containing dangerous goods in packages to be thoroughly ventilated before and during the time such dangerous goods are being unloaded.

3.10 *Ventilation of Holds After Unloading.*—The Master of a vessel shall ensure that—

- (a) all holds from which dangerous goods in packages have been unloaded are thoroughly ventilated;
- (b) after any spillage the bilges are carefully cleaned by removing any liquids by hand pumps or suitable wooden bailers and by swabbing and afterwards are suitably ventilated and all persons engaged in this work are provided with suitable breathing apparatus;
- (c) fire or non-approved lights are not permitted in or near any hold until the hold has been certified gas free by a Competent Chemist and written approval of the Port Officer or Harbor Master has been obtained.

3.11 *Ventilation of Stowage Spaces.*—The Master of a vessel shall ensure that proper and efficient ventilation for the place of stowage of inflammable dangerous goods is provided and all ventilators are covered with wire gauze as defined in Part 1 of this Rule.

3.12 *Holds to be Closed.*—The Master of a vessel shall ensure that all holds which contain or have recently contained dangerous goods and are not certified gas free are battened down as far as practicable at all times unless such holds are being cleaned or ventilated.

3.13 *Loading or Unloading Non Dangerous Goods at Night.*—The Master of a vessel possessing a permit from the Port Officer or Harbor Master to load or unload or handle any goods adjacent to dangerous goods at night and shall ensure that the following precautions are taken:—

- (a) Holds containing dangerous goods are securely battened down;
- (b) Holds in which goods are loaded or unloaded are separated by watertight and gastight bulkheads, decks, battened down hatchways or other adequate means from all places on the vessel where gas from dangerous goods is likely to be.

3.14 *Stowing Inflammable Dangerous Goods in Wooden Vessels.*—The Master of a wooden vessel shall not permit inflammable dangerous goods to be stowed below deck. A limited quantity may be carried on the weather deck of such a vessel if the inflammable dangerous goods are stowed at a safe distance from the galley, crews' quarters and openings leading into machinery or boiler spaces and stowage shall be to the satisfaction of the Port Officer or Harbor Master.

3.15 *Quantity of Inflammable Dangerous Goods Permitted on Wharves or in Sheds.*—Except with the written permission of the Port Officer or Harbor Master no greater quantity of inflammable dangerous goods shall be placed on any wharf than can be handled in a period of one hour with the personnel, machines and transport available.

3.16 *Limitation of Quantities of Oxidising Substances and Organic Peroxides Permitted to be on Board a Vessel or Handled at a Wharf.*—

- (a) Except as provided in sub-clause (b) and (c) herein relating to ammonium nitrate the total quantity of oxidising substances and organic peroxides Classes 5 (a) and 5 (b) in the Red Book permitted on board a vessel or handled at an ordinary berth shall not exceed the weights specified in Schedule II.
- (b) Notwithstanding sub-clause (a) a quantity not exceeding 2,000,000 kilograms of ammonium nitrate containing not more than 0.2%

combustible matter (including organic matter calculated as carbon) may be handled and conveyed on a vessel—

- (i) at an isolated wharf specifically designated by the Port Officer or Harbor Master;
 - (ii) provided the ammonium nitrate is stowed in the vessel in accordance with the requirements of the Department of Transport regarding the stowage and packing of ammonium nitrate in a vessel;
 - (iii) in accordance with any special conditions specified by the Port Officer or Harbor Master.
- (c) Notwithstanding sub-clause (b) a quantity not exceeding 150,000 kilograms of ammonium nitrate containing not more than 0.2% combustible matter (including organic matter calculated as carbon) and packed in bags may be conveyed in a vessel as through cargo at an ordinary wharf subject to the following conditions—
- (i) the hold in which ammonium nitrate is stowed is and remains closed while the vessel is in port; and
 - (ii) any special conditions specified by the Port Officer or Harbor Master are complied with.

3.17 Substances Liable to Spontaneous Combustion and Substances which Become Dangerous by Interaction with Air.—The person in charge of handling or storing dangerous goods which are liable to spontaneous combustion or which become dangerous by interaction with air shall ensure that such goods are kept well clear of heat and all other inflammable dangerous goods, strong acids, organic chemicals, compressed gases, corrosive acids, finely divided metals and any other combustible matter.

3.18 Corrosive Substances.—The person in charge of handling or storing corrosive substances shall ensure that such goods are kept well separated from foodstuffs and empty containers intended for foodstuffs.

3.19 Poisonous Substances.—The person in charge of handling or storing poisonous substances shall ensure that such goods are kept well separated from foodstuffs and empty containers intended for foodstuffs.

3.20 Segregation on Wharves or in Sheds.—The person in charge of handling or storing dangerous goods which are permitted to be stored on wharves or in wharf sheds or in other areas under the jurisdiction of the Port Officer shall ensure that such dangerous goods are segregated from other goods in accordance with Section 4 of the Red Book and in accordance with any additional requirements for individual entries in Part II of the Red Book.

3.21 Provisions for Handling Explosives.—All explosives shall be handled in accordance with the provisions of this Rule and the Explosives Act 1960 and the regulations thereunder.

PART 4.—PROVISIONS RELATING TO DANGEROUS GOODS IN CONTAINERS AND PORTABLE SEALED TANKS.

4.1 General Conditions.—The Master of a vessel and the person on the wharf in charge of handling or storing containers or portable sealed tanks containing dangerous goods shall ensure that such containers and portable sealed tanks are not handled or stored unless the provisions of Parts 2, 3 and 4 of this Rule are complied with.

4.2 Identification of Container or Portable Sealed Tank.—The container or portable sealed tank shall be properly identified in the Application to Handle Dangerous Goods Schedule IV and Schedule V.

4.3 Marking of Containers.—

- (a) The container or portable sealed tank shall be conspicuously marked or labelled in English on each side and on the top with the name of the dangerous goods contained therein in accordance with the design and rules provided in the Red Book.
- (b) Each set of labels shall comprise one label representing the principal hazard and if appropriate an additional label for each secondary hazard.
- (c) The container or portable sealed tank shall be marked with appropriate instructions on stowage requirements, fire quenching medium, and warnings with respect to handling.
- (d) Each individual dangerous goods package stowed within the container shall bear a set of appropriate standard dangerous goods labels except that this requirement may be dispensed with where all of the packages would bear the same set of labels.

4.4 Construction of Containers.—Inflammable dangerous goods shall not be shipped in containers unless the containers are of metal or other fireproof construction approved by the Port Officer or Harbor Master.

4.5 Limitation of Quantities of Dangerous Goods in Containers and Portable Sealed Tanks.—The Master of a vessel or the person on the wharf in charge of storing or handling dangerous goods shall not permit those dangerous goods to be on a vessel or on a wharf in containers or portable sealed tanks in quantities in excess of the amounts specified in Schedules II and III.

4.6 Approval of Portable Sealed Tanks for Transit.—

- (a) The Master, Owner or Agent of a vessel shall ensure that a portable sealed tank is not used for the conveyance of dangerous goods in transit on a vessel at a normal wharf unless the tank has been approved for carriage in vessels by the Chief Surveyor (Marine) Commonwealth of Australia or the Port Officer or by the competent authority in the country or state of origin where such country or state is a Member Government of the Inter-governmental Maritime Consultative Organization.
- (b) In such cases the Application to Handle Dangerous Goods (Schedule IV) shall be endorsed in the following manner by the Master, Owner or Agent—"I certify that the portable sealed tanks identified as (.....reference names or numbers) have been approved for the conveyance of (.....name of dangerous goods) carried therein by (.....name of competent authority) in accordance with certificate of approval dated (.....)."

4.7 Approval of Portable Sealed Tanks for Loading or Unloading.—The Master, Owner or Agent of a vessel shall ensure that a portable sealed tank containing dangerous goods shall not be loaded or unloaded at a normal wharf unless—

- (a) it has been approved for the carriage of dangerous goods in vessels by the Chief Surveyor (Marine) Commonwealth of Australia or the Port Officer or by the competent authority in the country or state of origin where such country or state is a Member Government of the Inter-Governmental Maritime Consultative Organization and the Application to Handle Dangerous Goods has been endorsed in the manner required for approval of conveyance of portable sealed tanks in transit; and
- (b) permission has been given by the Port Officer or Harbor Master for loading or unloading of such portable sealed tanks.

4.8 Precautions and Special Requirements in Handling Portable Sealed Tanks.—

- (a) All particular requirements which apply to the various classes of dangerous goods in packages shall apply similarly when such dangerous goods are conveyed in portable sealed tanks.
- (b) All portable sealed tanks which have contained dangerous goods shall be deemed to contain such dangerous goods until they have been certified gas free.
- (c) Persons not engaged in the loading or unloading of portable sealed tanks are not permitted within 15 metres of the working area whilst loading or unloading operations are in progress.
- (d) No goods shall be worked over or within 15 metres of portable sealed tanks without the written permission of the Port Officer or Harbor Master.
- (e) Any portable sealed tank which is leaking or damaged in any way shall not be placed on any wharf without the written permission of the Port Officer or Harbor Master.

4.9 Unloading from and Loading into Portable Sealed Tanks.—Except where special permission is given by the Port Officer or Harbor Master dangerous goods shall not be unloaded from or loaded into a portable sealed tank on a vessel or wharf by means of hose or pipe line or by any other means to or from shore installations, road vehicle carrying tanks or any other tank or container unless in addition to observing any special directions of the Port Officer or Harbor Master the following requirements are complied with:—

- (a) All pipe lines, hoses, valves and fittings shall be kept gas tight and the means of ventilation from such portable sealed tank, road vehicle carrying a tank or any other tank or container shall be covered with a wire gauze as defined in Part 1 and shall be of a type approved by the Port Officer or Harbor Master;
- (b) No openings other than ventilation openings approved by the Port Officer or Harbor Master are permitted;
- (c) The engines of road tank vehicles shall be stopped while liquid or gaseous dangerous goods are being handled;
- (d) Only pumps of types approved by the Port Officer or Harbor Master shall be used;
- (e) The opening of hatches and the handling of goods in the vicinity of portable sealed tanks during loading or unloading operations shall only be carried out with the permission of the Port Officer or Harbor Master.

4.10 Requirements for Handling Containers at Ordinary Berths.—When containers containing dangerous goods are being handled at an ordinary berth—

- (a) no person other than those engaged in handling of containers shall approach within 15 metres of the working area;
- (b) no goods shall be worked over or within 15 metres of the containers unless the special permission of the Port Officer or Harbor Master has been obtained; and
- (c) they shall be handled in accordance with the requirements related to their contents as specified in Part 3 of this Rule unless the contrary intention appears. In the event of there being any such contrary intention departure from the provisions of Part 3 of this Rule shall only be made with the approval of the Port Officer or Harbor Master.

4.11 Special requirements for handling containers at a container terminal or container depot.—

- (a) *Fire protection at a Container Terminal or Depot.*—The Occupier or lessee of a container terminal or depot shall provide fire protection and emergency equipment and arrange personnel training for the protection of the terminal or depot to the satisfaction of the Port Officer having regard to the nature of the dangerous goods being handled.
- (b) *Substances Prohibited at a Container Terminal.*—Dangerous goods listed in Category A in the Red Book shall not be handled at a container terminal.
- (c) *Immediate Removal and Loading at a Container Terminal.*—Containers holding the following substances:—
 - (i) dangerous goods specified in the Red Book as permitted on cargo vessels as "deck stowage only";
 - (ii) ammonium Nitrate and all chlorates; and
 - (iii) organic peroxides class 5 (b)—shall be removed from the terminal area immediately on unloading or shall be loaded on board the vessel immediately after arrival at the terminal except that subject to clause (e) such containers may be retained at a terminal.
- (d) *Segregation of Containers at a Container Terminal.*—Except for those containers subject to immediate removal cargo containers holding dangerous goods shall be segregated in the stacks at the terminal in a similar manner to that required on the container vessel.
- (e) *Retention of Containers at the Terminal or Depot.*—Notwithstanding clause (c) containers holding dangerous goods—
 - (i) intended for transshipment;
 - (ii) discharged from or to be loaded on vessels during the weekends or public holidays; or
 - (iii) to be packed or unpacked at a container depot—
 may be held in a section of the terminal or depot specially set aside for this purpose provided the permission of the Port Officer or Harbor Master has been given in writing and any special terms or conditions are strictly complied with.

PART 5.—PROVISIONS RELATING TO TANKERS AND TO VESSELS CONVEYING DANGEROUS GOODS AND OIL IN BULK.

Section 1: General Conditions.

5.1 Application.—The provisions of Part 2 and Part 5 apply to the handling of dangerous goods and oil in—

- (a) tankers; and
- (b) vessels in which dangerous goods or oil in bulk are carried in deep tanks or tanks fitter to the vessel.

5.2 Limitation of classes of dangerous goods and oil in tanks at an ordinary wharf.—Dangerous goods in bulk shall be handled only at special wharves or facilities approved by the Port Officer except that the following classes of dangerous goods may be handled by means of a pipe line at an ordinary wharf—

- (a) Oils;
- (b) Corrosive substances (Category C); and
- (c) Poisonous substances (Category C) other than those giving off poisonous gases or vapours.

5.3 Limitation of dangerous goods carried on, discharged from or loaded into ships constructed as tankers.—No dangerous goods other than those listed in Schedule I or oil shall be carried

on, discharged from or loaded into any vessel constructed as a tanker except with the written permission of the Port Officer and subject to such terms and conditions as the Port Officer thinks fit.

5.4 *Dangerous goods and oil in fixed tanks or deep tanks in vessels other than tankers.*—Dangerous goods or oil in bulk shall not be carried in any fixed tank or deep tank on a vessel unless—

- (a) the ship possesses a notation from a Classification Society recognized by the Port Officer or a valid certificate of survey issued by the government of the country of registry of the vessel or by an authority on behalf of that government as being a ship suitable for the carriage of the particular substance provided that the government concerned is a signatory of the 1960 Convention for Safety of Life at Sea; and
- (b) the Application to Convey or Handle Oil in Bulk or Dangerous Goods has been endorsed in the following manner by the Master, Owner or Agent of the vessel:—

“I certify that the fixed tank or deep tank identified as (..... reference name or position) has been approved for the conveyance of (..... name of dangerous goods) carried therein, by (..... name of competent authority) in accordance with the certificate of approval dated (.....).”

5.5 *Declaration.*—The Master or Agent of every vessel having on board dangerous goods or oil in bulk shall before entering the port sign a declaration stating whether or not to the best of his knowledge and belief the vessel and tanks therein are free from leakages. Such declaration shall be delivered to the Port Officer or Harbor Master at least 24 hours before the vessel enters the port.

5.6 *Vessel Not Gas Free.*—A vessel which has contained dangerous goods or oil in bulk shall be deemed to contain dangerous goods until the vessel has been certified gas free.

5.7 *Permit Required to Enter Vessel.*—Persons other than the vessels crews and those persons actually engaged in the work of loading or unloading dangerous goods or oil in bulk shall not be allowed on any vessel without the written permission of the Port Officer or Harbor Master and the consent of the Master of such vessel.

5.8 *Wharf Barricade.*—The Master of a vessel shall ensure that the loading or unloading of dangerous goods or oil in bulk from the vessel shall not commence until a barricade to prevent access to the vessel and pipe line hose connections by any unauthorized person has been erected to the satisfaction of the Port Officer or Harbor Master and until an approved watchman has been stationed at each opening of the barricade to prevent the entrance of any unauthorized person and to take charge of matches and all other means of making a fire or light from all persons entering the barricade.

5.9 *Smoking and Other Fire Risks.*—In or on any vessel having on board or having had on board inflammable dangerous goods or oil in bulk and not certified gas free or on any wharf where inflammable dangerous goods or oil in bulk is present or being handled or at any place within 100 metres of such vessel or wharf no person shall except in a location approved by the Port Officer or Harbor Master—

- (a) smoke or have in his possession or under his control any matches, fire or other means of ignition or any light other than an approved safety lamp;
- (b) create any spark, fire or flame or use any telephone, tool, electrical apparatus or other equipment capable of creating any spark, fire or flame.

5.10 *Watchman at Gangway.*—

- (a) The Master of a vessel with dangerous goods or oil in bulk on board shall ensure that a watchman approved by the Port Officer or Harbor Master is stationed at each gangway leading on to the

vessel to prevent smoking, to prevent unauthorized access to the vessel and to warn every person that oil or dangerous goods are being loaded or unloaded on or from the vessel.

- (b) The handling of dangerous goods or oil in bulk shall cease immediately on instructions from the Port Officer or Harbor Master if either considers a watchman unfit for the purposes of this clause and the handling of dangerous goods or oil shall not be resumed until a watchman approved by the Port Officer or Harbor Master is so stationed.

5.11 Hours for Handling.—Dangerous goods or oil in bulk shall not be loaded or unloaded on or from a vessel at any time between sunset and sunrise unless a permit in writing so to do has been obtained from the Port Officer or Harbor Master.

5.12 Loading or Unloading in Bulk.—The Master of a vessel and the person on the wharf in charge of loading or unloading of dangerous goods or oil in bulk shall ensure that the following precautions are taken:—

- (a) When loading or unloading of dangerous goods or oil is completed or ceases temporarily valves on ship and on shore pipe line are closed and hoses immediately disconnected;
- (b) All openings in tanks which have contained dangerous goods are made gastight immediately on completion of loading or unloading with the exception of approved vents covered with wire gauze as defined in Part 1;
- (c) Loading and unloading operations are not carried out at the same time except with the written permission of the Port Officer or Harbor Master.

5.13 Ballasting of Vessels.—The Master of a vessel shall ensure that ballasting with water into tanks having contained dangerous goods or oil is carried out through the vessel's cargo lines and openings to tanks are kept closed with the exception of approved vents covered with wire gauze as defined in Part 1.

5.14 Mooring of Vessels.—The Master of a vessel conveying dangerous goods or oil in bulk shall comply with the mooring requirements of the Port Officer or Harbor Master and shall ensure that the vessels moorings are kept under surveillance and are tended to prevent the vessel moving off the wharf.

5.15 Steel Hawser to be Placed Over Side of Vessels.—Immediately a vessel conveying dangerous goods or oil in bulk has been berthed the Master shall ensure that steel wire hawsers each with an eye at the outboard end and sufficiently strong to enable the vessel to be hauled away from the wharf thereby are placed over the offshore bow and quarter of such vessel and made fast on board. The hawsers shall so remain while the vessel is alongside the wharf and shall be tended and adjusted so as to be maintained at water level.

5.16 Boiler Fires and Galley Appliances.—Boiler fires for the purpose of supplying power for handling goods and for galley heating appliances shall only be used where the construction of the vessel and the location of the fires is such that there is no hazard and permission is obtained from the Port Officer or Harbor Master.

5.17 Locomotives not Permitted Within 100 Metres.—The driver of a locomotive shall not take his locomotive within a distance of 100 metres of any vessel having on board inflammable dangerous goods or oil in bulk or having had on board inflammable dangerous goods or oil in bulk and not certified gas free or within a distance of 100 metres of any section of wharf on which these goods are being handled.

5.18 Chipping, Scraping, Hammering Prohibited.—

- (a) No person shall use iron or steel hammers or other instruments capable of causing a spark for the purpose of opening or closing hatches or tank lids on a vessel having on board or having had on board inflammable dangerous goods or oil in bulk and not certified gas free.

- (b) The Master of a vessel shall ensure that no chipping, scraping or hammering of iron or steel on the vessel is permitted when any tank which contains or has contained inflammable dangerous goods or oil in bulk and not certified gas free is open or while these goods are being handled or are on deck.

5.19 *Types of Footwear.*—Any type of footwear liable to cause a spark shall not be worn on a vessel having on board or having had on board inflammable dangerous goods or oil in bulk and not certified gas free.

5.20 *Towing Vessels.*—

- (a) The Master of a vessel not having motive power of its own and having on board inflammable dangerous goods or oil in bulk or having had on board inflammable dangerous goods or oil in bulk and not certified gas free shall not permit the vessel to be navigated except in tow of or attended by an efficient tug propelled by steam, electricity or other mechanical power.
- (b) The Master of a tug shall ensure that—
 - (i) not more than two vessels without motive power are towed together at one time either abreast or in train;
 - (ii) no vessel without motive power is towed alongside unless permission in writing of the Port Officer or Harbor Master is obtained.

5.21 *Tugs and Other Vessels.*—

- (a) The Master of an unauthorized vessel shall not take his vessel within 200 metres of any vessel which has loaded or unloaded inflammable dangerous goods or oil in bulk or within 200 metres of any special wharf used for handling inflammable dangerous goods or oil in bulk.
- (b) The Master of a tug or other authorized vessel shall not take his vessel within 200 metres of a vessel which has loaded or unloaded inflammable dangerous goods or oil in bulk before all openings in tanks other than approved vents covered with wire gauze as defined in Part 1 have been closed, all ullage plugs replaced, tanks battened down and all pipe lines and flexible hoses from the vessel to shore have been disconnected.
- (c) The Master of a vessel handling inflammable dangerous goods shall detail an officer to prevent the approach of any tug or other authorized vessel before the completion of such operations.

5.22 *Accommodation and Engine Room Doors.*—The Master of a vessel shall ensure that all doors to accommodation, engine room and storerooms are kept closed while loading, unloading or ballasting is taking place.

5.23 *Sealing of Vessels Sea Valves.*—Before the discharge of ballast or the handling of dangerous goods or oil in bulk commences the Master of a vessel shall ensure that all sea valves connected in any way with the vessels cargo system are securely closed and sealed and remain closed and sealed until such discharge or handling ceases.

5.24 *Handling Stores and Other Goods.*—The Master of a vessel shall ensure that whilst dangerous goods are being handled no other goods except those carried by hand are loaded or unloaded without the prior approval of the Port Officer or Harbor Master.

5.25 *Electrical Bonding.*—The Master of a vessel and the person on the wharf in charge of handling inflammable dangerous goods or oil in bulk shall ensure that—

- (a) the vessel and all tanks, spaces and pipe lines are electrically bonded and effectively earthed to prevent the accumulation of static electricity;

- (b) pipe line connections are electrically bonded before hoses are connected and the bonding is not broken before hoses are disconnected.

5.26 *Tanks*.—The Master, Owner or Agent of a vessel shall ensure that the tanks or spaces of the vessel used for conveying inflammable dangerous goods or oil in bulk shall comply with the following:—

- (a) Every tank shall be efficiently screened from any engine on the vessel by a fire resisting shield placed at least fifteen centimetres from the tank and carried up above the tank and down below it and the exhaust of the engine shall be wholly in front of this shield if the engine is in front of such tank or wholly behind this shield if the engine is behind such tank;
- (b) All pressure and vacuum relief valves shall be effectively protected by wire gauze as defined in Part 1;
- (c) The bottom end of each fill pipe shall be carried down to near the bottom of the tank to form a liquid seal;
- (d) All fill pipes and dip pipes and other openings of a tank shall be fitted with screw caps, bolted covers or other means of closing gas tight at all times when such fill pipes or dip pipes are not in use for filling or dipping and there shall be no opening of any kind in the walls of the filling pipe capable of communicating with the gases in the tank and where perforations are made in the dip pipe all such openings shall be covered with wire gauze as defined in Part 1;
- (e) All vent pipes on tanks shall be properly protected at the outlets by wire gauze as defined in Part 1 and made weatherproof;
- (f) No tank shall be filled with inflammable dangerous goods or oil in bulk in excess of the safe ullage necessary to prevent any overflow.

5.27 *Safety Gauze on Openings to Tanks*.—The Master of a vessel shall ensure that except during inspection or when samples or ullage measurements are being taken wire gauze as defined in Part 1 is fitted over all openings of tanks that contain or have recently contained inflammable dangerous goods or oil in bulk.

5.28 *Scuppers and Deck Openings*.—The Master of a vessel shall ensure that all scuppers and overside deck openings are plugged before pumping commences whether for loading or unloading of the vessel or for transferring between tanks.

5.29 *Departure*.—The Master, Owner or Agent of a vessel with dangerous goods on board shall ensure that the vessel leaves port without undue delay after loading or discharging except that any such vessel may remain for the purpose of taking on board bunkers, stores or ballast or for such other purposes as are specifically approved on each occasion by the Port Officer or Harbor Master.

Section 2: Liquefied Inflammable Gases.

5.30 *Application*.—The particular provisions of this Section apply to the conveying and handling of liquefied inflammable gases in bulk.

5.31 *Carriage*.—The Master, Owner or Agent of a vessel shall ensure that liquefied inflammable gases in bulk are not carried in a vessel unless the vessel is a gas tanker or other vessel approved by the Port Officer for this purpose.

5.32 *Approved Wharves*.—Liquefied inflammable gases in bulk shall be handled only at wharves approved for this purpose by the Port Officer.

5.33 *Tanks*.—The Master, Owner or Agent of a vessel shall ensure that all tanks used for the carriage of liquefied inflammable gas and the appliances connected therewith shall conform to the requirements of the Chief Surveyor (Marine) Commonwealth

of Australia or of the Port Officer or of the Competent Authority in the Country or State of origin where such Country or State is a Member Government of the Inter Governmental Maritime Consultative Organization.

5.34 *Handling Liquefied Inflammable Gas.*—The Master of a vessel and the person on the wharf in charge of handling liquefied inflammable gas shall ensure that the following precautions are observed:—

- (a) *Escape of Liquefied Inflammable Gas.*—Every precaution is taken to prevent liquefied inflammable gas escaping from pipe lines, flexible hoses, valves, flanges or other appliances;
- (b) *Positive Pressure in Tanks and Pipe Lines.*—All pipe lines, flexible hoses and tanks containing liquefied inflammable gases are maintained under a positive pressure and air shall be prevented at all times from entering such pipe lines, flexible hoses and tanks;
- (c) *Connecting and Disconnecting of Pipe Lines or Flexible Hoses.*—Every precaution is taken to prevent air from entering and liquefied inflammable gas escaping from the pipe lines or flexible hoses when connecting or disconnecting and the following requirements shall be complied with:—
 - (i) All pipe line and flexible hose connections between ship and shore shall be made gas and liquid tight and tested before pumping commences;
 - (ii) After connecting, the pipe line or flexible hoses between adjacent ship and shore valves shall be cleared of air with an inert gas before these two valves are opened and the transfer of liquefied inflammable gas commences;
 - (iii) On completion of pumping, all liquefied inflammable gas between adjacent ship and shore valves shall after closing these valves and before disconnecting the pipe lines and flexible hoses, be displaced with an inert gas into the vessel or other safe place as approved by the Port Officer or Harbor Master;
 - (iv) The prior approval of the Port Officer shall be obtained if alternative arrangements are provided to prevent the admission of air and the escape of liquefied inflammable gas when connecting or disconnecting pipe lines and flexible hoses;
- (d) *Precautions on Suspension of Loading or Unloading.*—
 - (i) When the loading or unloading of liquefied inflammable gas has commenced it is diligently proceeded with;
 - (ii) When pumping is stopped all tank and pipe line valves are closed immediately and every transfer pipe line on vessel and shore is disconnected and blanked off;
- (e) *Repairs or Interruptions during Loading or Unloading.*—If any leakage of liquefied inflammable gas is observed or any fault needing repair occurs in the pipe line or connections or if continuous transfer is interrupted in any way all pumping or transfer operations are stopped and all valves closed until adequate safety measures have been taken;
- (f) *Shutting Down in Emergency.*—
 - (i) Remote control systems are provided at points well removed from the pipe lines for closing valves and stopping pumps in an emergency;

- (ii) These systems are tested by a responsible and competent person in each instance before the handling of liquefied inflammable gas commences;

(g) *Pipe Lines to be Supervised.*—All pipe lines and vessels' transfer pipes are under constant supervision whilst rigged for transfer operations;

(h) *Dispersal of Gas.*—Any gas which forms in a pipe line is returned to the storage point or other safe place approved by the Port Officer.

5.35 *Purging of Air.*—The Master of a vessel or person on the wharf in charge of handling liquefied inflammable gas shall ensure that any tank, pipe line or flexible hose whether on the vessel or shore which has not previously contained liquefied inflammable gas or has contained such gas and has subsequently been gas freed shall be purged of all air with a dry inert gas prior to admitting liquefied inflammable gas into the system.

5.36 *Gas Freeing.*—The Master of a vessel shall not gas free within a port any tank which has contained liquefied inflammable gas unless the following requirements are observed and written permission is obtained from the Port Officer or Harbor Master:—

(a) The vessel is at an approved wharf and the liquefied inflammable gas is displaced to a safe place ashore approved by the Port Officer or Harbor Master;

(b) All tanks or pipe lines which are not gas free are positively isolated from the remainder of the system;

(c) Liquefied inflammable gas is displaced from the tanks and pipe lines with dry inert gas followed by low pressure air.

5.37 *Pressure in Tanks.*—The Master of a vessel shall ensure that—

(a) the designed pressure limit in vessels tanks is not exceeded and no gas is released to atmosphere on the vessel unless permission of the Port Officer or Harbor Master is first obtained;

(b) the designed pressure in refrigerated tanks is maintained and excessively low pressure or vacuum in the tanks is avoided.

5.38 *Cooling of Pressurized Tanks.*—The Master of a vessel shall ensure that the development of excessively high pressure in tanks containing pressurized liquefied inflammable gas due to temperature change is controlled by the use of water sprays or other cooling media.

5.39 *Blending of Liquefied Inflammable Gas.*—The Master of a vessel shall ensure that the adding of components in sequence into tanks on a vessel known as Commingled Blending is not carried out with liquefied inflammable gases unless tanks, pipe lines and flexible hoses are constructed to withstand the change in temperature and pressure and the product conditions are suitable and compatible and the prior approval of the Port Officer or Harbor Master is obtained.

5.40 *Ullage.*—The Master of a vessel shall ensure that—

(a) no tank is filled with liquefied inflammable gas in excess of the safe ullage;

(b) the minimum allowable ullage space in the tanks is calculated taking into account the high coefficient of volumetric expansion of liquefied gas.

5.41 *Frost Burns.*—The Master of a vessel and the person on the wharf in charge of handling liquefied inflammable gas shall ensure that—

(a) all personnel are warned of the danger of frost burns resulting from the contact of liquefied inflammable gas with the naked skin and touching uninsulated low temperature pipe lines;

- (b) sufficient and suitable protective clothing and gloves are available for use to protect personnel from frost burns.

5.42 Compartments on Gas Tankers to be Kept Closed.—The Master of a vessel shall ensure that all compartments in which tanks for containing liquefied inflammable gas are fitted on vessels are kept securely closed during the whole time the vessel is within the port.

5.43 Use of Tools.—The Master of a vessel and the person on the wharf in charge of handling liquefied inflammable gas shall ensure that instruments and tools for any operation in connection with the loading or unloading of liquefied inflammable gas are used with the minimum of force necessary and that they are not subjected to blows from a hammer or similar implement and every precaution is taken to prevent such tools causing a spark.

5.44 Scuppers and Drain Holes.—The Master of a vessel shall ensure that all scuppers and all other vents which may permit liquefied gases to escape to the water during a leakage are opened before loading or unloading commences and are kept open whilst loading or unloading is taking place.

Section 3: Poisonous Substances.

5.45 Application.—The particular provisions of this Section apply to poisonous substances listed in Schedule I.

5.46 Approved Wharves.—Poisonous substances shall be handled only at wharves approved for this purpose by the Port Officer.

5.47 Notices.—The Master of a vessel carrying poisonous substances and the person on the wharf in charge of handling poisonous substances shall ensure that notice boards with the words "Keep Away—Poisons being Handled" are prominently displayed and are lighted at night.

5.48 Protective Clothing and Gas Masks.—The Master of a vessel carrying poisonous substances and the person on the wharf in charge of handling poisonous substances shall ensure that sufficient and suitable protective clothing and eye protection is available for immediate use in case of emergency and in the case of substances which give off a poisonous gas at least three sets of suitable gas masks are available at the wharf for emergency use.

5.49 Special Precautions.—The Master of a vessel carrying poisonous substances and the person on the wharf in charge of handling poisonous substances shall be responsible for the observance of all special precautions relating to the particular substances being handled.

Section 4: Corrosive Substances.

5.50 Application.—The particular provisions of this Section apply to corrosive substances.

5.51 Notices.—The Master of a vessel carrying corrosive substances and the person on the wharf in charge of handling corrosive substances shall ensure that notice boards with the words "Keep Away—Corrosive Substances being Handled" are prominently displayed and are lighted at night.

5.52 Protective Clothing.—The Master of a vessel carrying corrosive substances and the person on the wharf in charge of handling corrosive substances shall ensure that sufficient and suitable protective clothing and eye protection are available for immediate use in case of emergency.

5.53 Special Precautions.—The Master of a vessel carrying corrosive substances and the person on the wharf in charge of handling corrosive substances shall be responsible for the observance of all special precautions relating to the particular substances being handled.

SCHEDULE 1.

LIST OF DANGEROUS GOODS PERMITTED TO BE CARRIED IN,
DISCHARGED FROM OR LOADED INTO SHIPS CONSTRUCTED AS
TANKERS UNDER PART 5 OF PORT RULE 113.

Where a substance with a number of hazardous properties is listed under more than one heading hereunder the provisions applying to each of the groups of substances shall be observed:—

Inflammable Liquids.

(a) Inflammable Liquids as defined in this Rule.

(b) Other substances possessing a fire risk as may from time to time be defined by the Minister.

Liquefied Gases.

Liquefied Natural Gas (Methane, Ethane and mixtures thereof).
Liquefied Petroleum Gas (Butane, Isobutane, Butene, Isobutene,
Propane, Propylene, Cyclopropane and mixtures thereof).

Other liquefied gases as may from time to time be defined by the Minister.

Poisonous Substances.

Tetra Methyl Lead

Tetra Ethyl Lead

Aqua Ammonia.

Corrosive Substances.

Nil.

SCHEDULE II.

LIMITATION OF QUANTITIES OF CLASS 5 (a) AND CLASS 5 (b)
DANGEROUS GOODS PERMITTED TO BE ON BOARD A VESSEL AT AN
ORDINARY WHARF UNDER PART 3, AND PART 4 OF PORT RULE 113.

No.	Substance	Quantity
1	Nitrates of barium, lead, potassium, sodium, strontium	Not limited
2	Ammonium Perchlorate	10,000 kg
3	Ammonium nitrate containing not more than 0.2% by weight of combustible material (including organic material calculated as carbon)—	
	(a) in sound steel drums	150,000 kg
	(b) in bags within cargo containers	150,000 kg
	(c) in other than sound steel drums or cargo containers	10,000 kg
4	Ammonium Nitrate containing more than 0.2% by weight of combustible material (including organic material calculated as carbon)—other than authorized explosives	Not allowed
5	Other substances Classes 5(a) and 5(b)	200,000 kg
6	The total quantity of all substances classes 5 (a) and 5 (b) except for nitrates listed under Item No. 1	200,000 kg

SCHEDULE III.

LIMITATION ON QUANTITIES OF DANGEROUS GOODS PERMITTED IN
PORTABLE SEALED TANKS ON BOARD A VESSEL AT AN ORDINARY
WHARF UNDER PART 4 OF PORT RULE 113

Substance	Maximum Quantity In Each Tank	On Board A Vessel
Tetraethyl Lead and Tetramethyl Lead	4,500 litres	*
Aluminium Alkyls, Butyl Lithium and similar materials	1,400 kg	5,500 kg
Other Dangerous Goods	18,000 litres	*

* Subject to the approval of the Port Officer.

SCHEDULE IV.

Port of Unloading:

Application is made to convey, load, unload or handle the oil in bulk or dangerous goods as in the attached Schedule V or handle non-dangerous goods in a tank or space in which is stowed the dangerous goods or on or over a part of a deck or tank or space on which is stowed the dangerous goods as in the attached Schedule V at about _____ hours on ____/____/____.

I certify that:—

- (a) The portable sealed/fixed tanks identified as _____

 _____ reference name or position
 Have been approved for the conveyance of _____

 _____ name of dangerous goods
 carried therein, by (_____)

 _____ name of competent authority
 in accordance with the certificate of approval dated _____

- * (b) To the best of my knowledge and belief there are no damaged or deteriorated containers or packages containing dangerous goods amongst the goods described in the attached list.
- * (c) To the best of my knowledge and belief the following are particulars relating to damaged or deteriorated containers or packages containing dangerous goods:—

SCHEDULE IX.

LIST OF DANGEROUS GOODS.

1. As listed in the "Red Book".

AA (Allyl Alcohol)	Alloys of Alkaline Earth Metals, non-pyrophoric, not otherwise specified	Ammunition (a) tear producing, non explosive, with neither burster nor expelling charge.
AC (Allyl Chloride)	Allyl Alcohol	Ammunition (b) toxic, non-explosive, with neither burster nor expelling charge
Accelerene	Allyl Aldehyde	Amyl Acetate
Accumulators, electric	Allyl Bromide	Amylacetic Ester
Acetal	Allyl Chloride	Amylacetic Ether
1-Acetal	Allyl Chlorocarbonate	Amyl Alcohol, active
Acetaldehyde	Allyl Chloroformate	n-Amyl Alcohol
Acetaldehyde Ammonia	Allylene	primary-n-Amyl Alcohol
para-Acetaldehyde	Allyl Iodide	sec-n-Amyl Alcohol
Acetaldehyde Diethyl Acetal	Allyl Isothiocyanate, stabilized	tert-Amyl Alcohol
Acetate of Amyl	Allyl Mustard Oil	Amyl Alcohols
Acetic Acid, Sec-Butyl Ester	Allyltrichlorosilane, stabilized	Amylamine
Acetic Acid, solutions containing not less than 90% acid, calculated on the total weight	Aluminium, powder, coated, or treated, with oil or wax	Amyl Chloride
Acetic Aldehyde	Aluminium, powder, uncoated, non-pyrophoric	n-Amylene
Acetic Anhydride	Aluminium Alkylchlorides	Amyl Formate
Acetic Ester	Aluminium Alkyls	Amyl Hydrate
Acetic Ether	Aluminium Bromide, anhydrous	Amyl Hydride
Acetic Oxide	Aluminium Carbide	Amyl Hydrosulphide
Acetone	Aluminium Chloride, anhydrous	Amyl Mercaptan
Acetone Cyanohydrin, stabilized	Aluminium Diethyl mono-Chloride	Amyl Methyl Ketone
Acetone Oils	Aluminium Ethylchloride	Amyl Nitrate
Acetonitrile	Aluminium Ferrosilicon, powder	Amyl Nitrite
Acetyl Benzoyl Peroxide, solution containing at least 60% phlegmatizer	Aluminium Hydride	Amyl Sulphhydrate
Acetyl Bromide	Aluminium Nitrate	Amyltrichlorosilane
Acetyl Chloride	Aluminium Phosphide	Anaesthetic Ether
Acetylene, dissolved under pressure	Aluminium Silicon, powder, uncoated	Aniline
Acetylene Dichloride	Aluminium Trialkyls	Aniline Chloride
Acetylene Tetrachloride	Aluminium Tributyl	Aniline Hydrochloride
Acetyl Hydroperoxide	Aluminium Triethyl	Aniline Oil
Acetyl Iodide	Aluminium Trimethyl	Aniline Salt
Acetyloxide	Americium-241	Animal Carbon
Acetyl Peroxide, solution containing at least 75% phlegmatizer	Americium-243	Animal Charcoal
Acid Butyl Phosphate	Aminobenzene	Animal Fibres, burnt, wet or damp
Acid Mixtures, hydrofluoric and sulphuric	1-Aminobutane	Animal Fibres, oily
Acid Mixtures, nitrating acid	Aminodimethylbenzene	Anisoyl Chloride
Acid Mixtures, spent	Aminoethane	Anti-Freeze
Acraldehyde	Aminomethane	Antimony-122
Acrolein, inhibited	1-Amino-2-Methylpropane	Antimony-124
Acryl Aldehyde	1-Amino-2-Nitrobenzene	Antimony-125
Acrylic Aldehyde	1-Amino-3-Nitrobenzene	Antimony Chloride
Acrylonitrile, inhibited	1-Amino-4-Nitrobenzene	Antimony Compounds, inorganic, not otherwise specified
Actinium-227	1-Aminopentane	Antimony Glance
Actinium-228	2-Aminopropane	Antimony Lactate
Aerosol Dispensers	Ammonia (a) anhydrous, liquified and (b) ammonia solutions below s.g. 0.880 at 15°C	Antimony Pentachloride, (a) liquid
(a) with a capacity of 1400 cm ³ or more Containing Inflammable Gases or Liquids. Containing Toxic substances	Ammonia solutions	Antimony Pentachloride, (b) solutions
Containing neither Inflammable nor Toxic Gases or Liquids	(c) s.g. 0.892 to 0.958 at 15°C (31% to 10% ammonia)	Antimony Pentafluoride
(b) with a capacity below 1400 cm ³	(d) s.g. 0.880 to 0.891 at 15°C (36% to 31% ammonia)	Antimony Pentasulphide
Air (a) compressed	Ammonium Acid Fluoride	Antimony Perchloride
Air (b) liquid	Ammonium Arsenate	Antimony Potassium Tartrate
Alcohol	Ammonium Bichromate	Antimony Sulphides
Alcohol, denatured	Ammonium Bifluoride	Antimony Trichloride, (a) solid
Alcohol, industrial	Ammonium Chlorate	Antimony Trichloride, (b) liquid
Alcohol of Sulphur	Ammonium Dichromate	Antimony Trisulphide
Alcohols, not otherwise specified	Ammonium Dinitro-ortho-Cresolate, solid	Ant Oil, artificial
Aldehyde	Ammonium Hydrogen Fluoride	A.N.T.U. (Naphthylthiourea)
Aldehyde Ammonia	Ammonium Nitrate and Mixtures thereof	Aqua Regia
Aldehydes, not otherwise specified	Ammonium Nitrate Fertilizers	Argon, (a) compressed
Aldrin	Ammonium Nitrite	Argon, (b) liquid
Aldrin, mixtures, dry and liquid	Ammonium Perchlorate	Argon-37 (compressed or uncompressed)
Alkali Metal Amalgams, not otherwise specified	Ammonium Permanganate	Argon-41
Alkali Metal Amides, not otherwise specified	Ammonium Persulphate	Argon-41 (uncompressed)
Alkali Metal Dispersions, not otherwise specified	Ammonium Picrate (b) wetted with not less than 10% by weight, of water, calculated on the wet weight	Arsenates, liquid, not otherwise specified
Alkaline Caustic Liquids, not otherwise specified	Ammonium Picrate (c) wetted with not less than 10% by weight, of water, calculated on the wet weight	Arsenates, solid, not otherwise specified
Alkaline Earth Metal Amalgams, not otherwise specified	Ammonium Rhodanide	Arsenic-73
Alkaloids, poisons, and their salts, not otherwise specified	Ammonium Sulphocyanate	Arsenic-74
Alkanesulphonic Acids	Ammonium Thiocyanate	Arsenic-76
		Arsenic-77
		Arsenic Acid, (a) liquid
		Arsenic Acid, (b) solid
		meta-Arsenic Acid
		ortho-Arsenic Acid
		Arsenic Bromide

 Arsenic, Organic Compounds of
 Arsenic, Metallic, (a) powder
 Arsenic, Metallic, (b) crystals
 Arsenic Pentoxide
 Arsenic Sulphides, solid, not otherwise specified
 Arsenic Tribromide
 Arsenic Trichloride
 Arsenic Trioxide
 Arsenical Dust
 Arsenical Flue Dust
 Arsenical Sheep Dip
 Arsenious Chloride
 Arsenites, liquid, not otherwise specified
 Arsenites, solid, not otherwise specified
 Arsenous Bromide
 Arsenous Chloride
 Asphalt Cut-backs
 Asphalt Cloth, containing drying oils
 Asphalt Felt, containing drying oils
 Astatine-211
 ATE (Aluminium Triethyl)
 ATM (Aluminium Trimethyl)
 Aviation Gasoline
 Aziridine
 Bags: empty and unwashed, having contained potassium nitrate or sodium nitrate, or impregnated with oils or oil seeds
 Banana Oil
 Barium, alloys, non-pyrophoric
 Barium, alloys (Pyrophoric)
 Barium, metal, non-pyrophoric
 Barium, powdered
 Barium-131
 Barium-140
 Barium Azide, (a) containing at least 50% water or alcohol
 Barium Azide, (b) dry or containing less than 50% water or alcohol
 Barium Binoxide
 Barium Chlorate
 Barium Compounds not otherwise specified
 Barium Cyanide
 Barium Dioxide
 Barium Monoxide
 Barium Nitrate
 Barium Oxide
