VICTORIA POLICE

## MURDER

REWARD

The co-operation of the general public is sought with a view to establishing the identity of the person or persons responsible for the death of Thomas Jeffrey Cooper, who was shot dead at Rickett's Point Beach Car Park, Beaumaris, on the evening of Monday, 18 August 1980.

A reward of fifty thousand dollars (\$50 000) will be paid, at the discretion of the Chief Commissioner of Police, by the Government of Victoria for information leading to the apprehension and conviction of the person or persons responsible for the crime.

Any information, which will be treated as confidential, may be given at any time of the day or night, to the Officer in Charge, Criminal Investigation Branch, Russell Street, Melbourne (telephone 662 0911) or to the Officer in Charge of any Police Station.

L. H. S. THOMPSON  
Minister for Police and Emergency Services

THE UNIVERSITY OF CHICAGO

PHYSICS DEPARTMENT

PHYSICS 311

PHYSICS 311

# PHYSICS

PHYSICS

The University of Chicago Physics Department is pleased to announce the opening of the new Physics Building, which will house the department's research and teaching activities. The building is located on the South Campus and is a state-of-the-art facility that will provide an excellent environment for the study and research of physics.

The new building will contain a total of 100,000 square feet of space, including lecture halls, laboratories, offices, and a library. It will also feature a large auditorium and a theater, which will provide a venue for the department's public programs and events. The building is expected to be completed in the fall of 2000.

The University of Chicago Physics Department is a leading center for research in physics, and the new building will further enhance its reputation. The department is currently conducting research in a wide range of areas, including particle physics, astrophysics, and condensed matter physics. The new building will provide the department with the resources and facilities it needs to continue to be a leader in the field.

The University of Chicago Physics Department is a member of the American Physical Society and the American Nuclear Society. The department is also a member of the International Union of Pure and Applied Physics (IUPAP) and the International Union of Pure and Applied Chemistry (IUPAC). The department is committed to the highest standards of academic excellence and to the advancement of the field of physics.
