NOTICE THAT AN INTERIM DEVELOPMENT ORDER HAS BEEN PREPARED AND IS AVAILABLE FOR INSPECTION

Notice is hereby given that the Shire of Bet Bet in pursuance of its powers under the *Town and Country Planning Act 1961* has prepared a Planning Scheme for the whole of the Shire of Bet Bet.

A copy of the Order has been deposited at the office of the Council, Shire Offices, 66 Broadway, Dunolly, and at the office of the Department of Planning (Plan Inspection Section), 5th Floor, 235 Queen Street, Melbourne, and will be open for inspection during office hours by any person free of charge.

SHIRE OF BET BET INTERIM DEVELOPMENT ORDER 1982

Explanatory Statement

The Council of the Shire of Bet Bet has prepared a new and more detailed Interim Development Order (IDO).

The existing IDO, which was introduced in 1974, is of the "Blanket" type and all uses require a permit from the Council. It does not define areas or zones in which certain uses are permitted or prohibited or which may be permitted with Council's consent. Therefore it is not possible to establish if a piece of land can be used for a specific purpose except by making a formal application to the Council.

The proposed Shire of Bet Bet Interim Development Order 1982 sets out what may or may not be done in specified zones and what uses would require a permit from Council. This will reduce uncertainty, keep administrative delays to a minimum and encourage orderly forward planning for future land use.

The Shire of Bet Bet will be divided into 3 zones and in addition there will be two Special Control Areas.

General Farming Zone

This zone covers the majority of land in the Shire and provides for farming and related uses. The objectives of the zone are to preserve the rural amenity and to regulate development and subdivision which may limit the range of practicable future uses of the land.

Subdivision in this zone requires a permit and generally the minimum subdivision size is 40 hectares.

Rural Residential Zone

This zone covers land to the north and north-east of Dunolly which is capable of supporting small lot subdivision. The zone provides for rural and rural residential uses and developments.

Subdivision in this zone requires a permit and the minimum subdivision size is 4 hectares, except where reticulated water is available, when 1 hectare allotments may be permitted.

Township Zone

This zone covers the townships of Dunolly, Tarnagulla, Newbridge and Bealiba. The objectives of the zone are to preserve and enhance the residential amenity, to encourage consolidated development, to make full and economic use of public utilities and community facilities and to maintain the historic interest and character of the townships where appropriate.

Subdivision requires a permit and the minimum lot size is 0.1 hectares with a minimum frontage of 20 metres.

Special Control Areas

1. *Land Adjacent to Water Storages and Water Courses*—Special controls restricting uses and developments on land adjacent to water storages and watercourses will apply. The water storages are the Laanecoorie and Bealiba Reservoirs and the watercourses include the Loddon and Avoca Rivers and the Bet Bet, Cochranes, Burnt, Waaneyarra and Nuggety Creeks. These controls will place special importance on the maintenance of water quality, the natural beauty and importance of water courses and the preservation of wildlife habitats.

2. *Land Subject to High Erosion Risk*—Special controls also apply to areas of high erosion risk which are shown on the Special Controls Map. All use, development and subdivision of land will be subject to permit in these areas and the applications will be referred for comment to the Soil Conservation Authority.
