28. Melbourne area, District 2, Review
29. Mallee area, Review
30. South Gippsland area, District 1, Review
31. North-Eastern area, Districts 3, 4 and 5, Review
32. Corangamite area, Review

It is the Council's policy to review areas about every 10 years as in various areas recommendations were made covering only a ten year time span. In other instances the need for a review within a ten year period or so was recognised by the Council and included in the recommendation.

If this timing is to be achieved, it is necessary to plan now for the commencement of studies as a substantial period elapses between the start of an investigation and the publication of final recommendations.

**Melbourne Area**

The Governor in Council, on 16 June 1971, approved of the proposal to investigate the Melbourne area.

The investigation was completed and final recommendations in respect of public land were made by the Land Conservation Council in January 1977. It is now 11 years since the original investigation commenced.

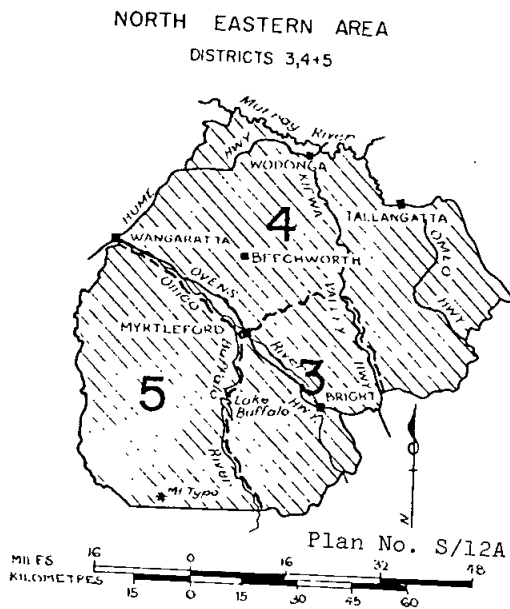

The Melbourne area takes in all the public land within a radius of approximately 100 km of Melbourne. The size of the area created difficulties when it was last investigated and it is suggested that it be divided into two districts for the purpose of the review. The proposed Melbourne area, District 1 shown on Land Conservation Council Plan No. S/25 hereunder comprises the area west of the Hume Highway, while District 2 of the Melbourne area comprises land east of the Hume Highway as shown on Land Conservation Council Plan No. S/26 hereunder.

The investigation was completed and final recommendations in respect of public land were made by the Land Conservation Council in October 1973. As it is 10 years since the original investigation commenced, it is now proposed that this area be reviewed.

**North-Eastern Area, Districts 3, 4 and 5**

The Governor in Council, on 16 May 1973, approved of the proposal to investigate the North-Eastern area, Districts 3, 4 and 5 as shown on Land Conservation Council Plan No. S/12A hereunder.

The investigation was completed and final recommendations in respect of public land were made by the Land Conservation Council in April 1977. As it is nine years since the original investigation commenced, it is now proposed that this area be reviewed.

**Corangamite Area**

The Governor in Council, on 2 October 1973, approved of the proposal to investigate the Corangamite area as shown on Land Conservation Council Plan No. S/27 hereunder.

The investigation was completed and final recommendations in respect of public land were made by the Land Conservation Council in September 1978. As it is nine years since the original investigation commenced, it is now proposed that this area be reviewed.

**A. Location of the districts and areas proposed to be investigated by the Land Conservation Council pursuant to paragraph (a) of subsection (1) or section 5:**

- 26. Melbourne area, District 1 (Review)  
(Land Conservation Council Plan No. S/25)
- 27. East Gippsland area (Review)  
(Land Conservation Council Plan No. S/9A)
- 28. Melbourne area, District 2 (Review)  
(Land Conservation Council Plan No. S/26)
- 29. Mallee area (Review)  
(Land Conservation Council Plan No. S/10A)
- 30. South Gippsland area, District 1 (Review)  
(Land Conservation Council Plan No. S/13A)
- 31. North-Eastern area, Districts 3, 4 and 5 (Review)  
(Land Conservation Council Plan No. S/12A)
- 32. Corangamite area (Review)  
(Land Conservation Council Plan No. S/27)

**B. Nature of the Investigations Proposed:**

The Council proposes to establish study groups to carry out full and thorough investigations of the districts or areas as mentioned above. These investigations will be substantially based on information collected for the previous reports but there will be some updating and re-organisation of existing data. The Council will further consider the many uses of land required by the community for different purposes.

Information will be collected about this land and, when necessary, specific studies will be initiated to obtain additional information that may be required. On completion of this thorough scientific investigation, the Council intends to make recommendations with respect to the use of public land in order to provide for the balanced use of land in Victoria.

**C. The order in which the Council proposes to carry out such investigations:**

- 26. Melbourne area, District 1, Review
- 27. East Gippsland area, Review
- 28. Melbourne area, District 2, Review
- 29. Mallee area, Review
- 30. South Gippsland area, District 1, Review
- 31. North-Eastern area, Districts 3, 4, and 5, Review.
- 32. Corangamite area, Review.
