## MEDICAL BOARD OF VICTORIA

## RECORD OF TEMPORARY MEDICAL REGISTRATIONS AS AT 30 JUNE 1983

Printed and published under the direction of the Medical Board of Victoria pursuant to the provisions of Section 27 of the *Medical Practitioners Act 1970*.

Section 27 of the *Medical Practitioners Act 1970* states, inter alia:

Section 27 (2) enables the Board to apply conditions and limitations when issuing a certificate of temporary registration.

Temporary registrants will in general be required to work either

(a) under the *general supervision* of and within the applicant institution or an officially related institution, or with the approval of the applicant institution within separate institutions of the same standard as the applicant institution.

When these conditions are to apply, Class I temporary registration may be granted; or

(b) under the direct supervision of *qualified members of the staff* of the applicant institution and only within the applicant institution or an officially related institution. If specifically sought by the applicant institution, the Board may grant permission for the registrant to work outside the applicant institution or an officially related institution provided that such work is solely within the practice of the designated qualified member of the staff of the sponsoring institution and under his constant direct supervision. Under these conditions the temporary registrant may *not*

(i) act as the principal treating doctor in the clinical management of patients

(ii) render accounts except as an assistant to the designated qualified member of the staff of the applicant institution.

When these conditions are to apply to Class II, temporary registration may be granted.

## Section 27 (3) states:

Every such certificate shall in the first place be issued for a period of not more than two years, but upon application in writing by the governing body of a teaching or research institution during the currency of the certificate the Board may, from time to time, renew the certificate for a further period or periods of not more than one year in respect of each such application, but so that the maximum period for which a certificate may be in force under this section in respect of any person shall not in the aggregate exceed four years.

## Section 27 (4) states:

The Board may at any time cancel any certificate issued or renewed under this section and thereupon the certificate shall cease to have any force or effect.

## ECONOMIC DEVELOPMENT ACT 1981

*At the Executive Council Chamber, Melbourne, the  
twelfth day of July, 1983*

Present:

His Excellency the Governor of Victoria	
Mr Simpson	Mr Trezise
Mr Roper	

In pursuance of the provisions of Sections 8 (1) and 8 (2) of the *Economic Development Act 1981*, No. 9567, His Excellency the Governor of the State of Victoria by and with the advice of the Executive Council of the said State, doth hereby declare the Box Hill Transport Centre (hereinafter referred to as the Project) to be a project of special significance to the economic development of the State of Victoria.

*The Project*

The Project consists of a grade separation at Station Street, integrated with a major transport modal interchange together with extensive commercial development. The site has been suitably rezoned following extensive public participation. The Project will greatly improve the transport facilities at Box Hill as well as revitalising the present shopping and business centre.

The Project involves:

- (a) the elimination of the heavily congested railway level crossing in Station Street, Box Hill;
- (b) the construction of a new underground railway station at Box Hill;
- (c) the reconstruction of nearby Blackburn railway station together with signalling improvements between Box Hill and Blackburn;
- (d) the provision of a covered bus terminal for 16 routes (M.M.T.B. and private bus lines) together with a central taxi rank;
- (e) covered car parking space for 500 rail commuters;
- (f) the construction of a commercial development of 22 000m<sup>2</sup> gross leasable area incorporating discount and department stores, food market and specialty shops in an air conditioned environment and associated car parking;
- (g) the creation of a pedestrian mall in one street (possibly two) to establish a focal point in the town centre thus enhancing the local environment;
- (h) improvements to various existing streets including several sets of traffic signals, pedestrian subway and associated traffic engineering works.

*Justification for the Project*

Box Hill railway station is one of the busiest in the metropolitan area. The area is designated a District Centre under the proposed Amendment 150 of the M.M.B.W. Metropolitan Strategy Implementation Plan.

The existing shopping centre is divided by the presence of the existing railway tracks and sidings.

The lowering of the railway tracks to eliminate the Station Street level crossing will consolidate this area and create several hectares of most valuable space in the town centre suitable for further commercial and retail development.

This Project will be the first true public transport modal interchange in Victoria where rail, bus, taxi and car passengers including cyclists, pedestrians, and the disabled will be able to transfer conveniently between different forms of transport within a protected environment containing all the amenities of a modern regional shopping centre.

Major administrative problems have been overcome since the land was re-zoned into a new land use entitled "Transport Central Zone". Economic studies have indicated that additional retail areas are justified and viable and may assist in arresting the decline in

local trading. Transport authorities and the District Chamber of Commerce support the scheme as does the Box Hill City Council which is contributing land and associated works.

*Reasons for the Declaration as a Project of Special Significance to the State of Victoria*

It is the Government's intention that the planning and construction of the Project be facilitated by a co-ordinated approach to the diverse and competing interests involved. In order to achieve that objective and to permit the Box Hill City Council to provide rate remissions on the subject land, the Minister for Economic Development, in consultation with the Minister for Transport, resolved to request the Governor in Council to declare the Project a "Special Project" pursuant to the provisions of the *Economic Development Act 1981*.

Such a Declaration empowers the Minister for Economic Development, pursuant to Section 10 of the Act, to ensure that the planning and construction phases of the Project be co-ordinated by requiring, with the consent of the Minister for Planning and the Minister for Conservation, any relevant responsible body to carry out its functions in or in relation to any matters pertaining to the planning construction or operation of a "Special Project" within such time as is specified by the Minister in accordance with the statutory limitations of such relevant responsible body.

The declaration of the Project as a "Special Project" pursuant to the *Economic Development Act 1981* empowers (under Section 9 of the Act) the relevant rating authority, on the advice of the Minister, to remit the whole or any part of any rates that would otherwise be payable on the subject land for a period not exceeding five years. The power to remit rates is regarded as an important aid to encourage private sector involvement, investment and co-operation in this Project.

*Benefits to the State of Victoria**(a) Employment*

It is estimated that the construction phase of both the railway and the commercial development works will generate approximately 250 jobs in late 1983 through to early 1985.

Following construction, the new shopping centre and pedestrian malls will revitalize retail and commercial activity in the area and the improved public transport facilities will further encourage retail development. The resultant growth will generate additional permanent employment opportunities in the Box Hill area.

*(b) Public Transport*

The unsatisfactory and congested bus terminals for the 16 bus routes which now operate out of Box Hill will be improved by consolidation into a separate, specially designed off-street terminal with adequate passenger shelter with direct access to and from the railway station located immediately under the bus waiting area.

Improved railway facilities for passengers, a regional parcels service and provision for a future 4th rail track are being included. Disabled passengers will be assisted by the provision of a lift to interchange directly with the railway, shopping area and buses/taxis/private cars.

The Box Hill Transport Centre is intended as a model for transport interchanges which may be considered at other large suburban centres in the future.

*(c) Planning/Road Traffic*

An improved shopping centre at Box Hill will assist the balanced development of the region particularly with regard to road traffic distribution.

Traffic flows in Station Street (secondary arterial road) will be assisted by the elimination of the level crossing and two pedestrian crossings; which will be replaced by properly co-ordinated traffic signals.

And the Honorable Ian Robert Cathie, M.P., Her Majesty's Minister for Economic Development in the State of Victoria, shall give the necessary directions herein accordingly.

#### ECONOMIC DEVELOPMENT ACT 1981

*At the Executive Council Chamber, Melbourne, the  
twelfth day of July, 1983*

Present:

His Excellency the Governor of Victoria  
Mr Simpson | Mr Trezise  
Mr Roper

In pursuance of the provisions of Sections 8 (1) and 8 (2) of the *Economic Development Act 1981*, No. 9567, His Excellency the Governor of the State of Victoria, by and with the advice of the Executive Council of the said State, doth hereby declare the Webb Dock Rail Link Extension (hereinafter referred to as the Project), to be a project of special significance to the economic development of the State of Victoria.

#### *The Project*

The Project involves:

- (a) the construction of a dual gauge rail link between the Melbourne Goods Yards and the Port of Melbourne Authority's Webb Dock facilities at Port Melbourne;
- (b) construction of a new railway bridge immediately west of the existing Charles Grimes Bridge;
- (c) relocation of the A.J. Wagglan Floating Dry Dock;
- (d) construction of tracks and associated equipment on the north side of Lorimer Street, South Melbourne and Port Melbourne.

The track then veers south at the Todd Street intersection involving resumption of the north west corner of the land currently occupied by the Commonwealth Government's Aeronautical Research Laboratories under lease from the Victorian Government. The track then veers south west at the southern boundary of the land currently occupied by the Commonwealth Aircraft Corporation again involving the resumption of the land leased from the Victorian Government.

The track then continues in a south westerly direction curving further south under the West Gate Freeway until it enters the Webb Dock area. The Project involves a number of road crossings and a small encroachment into land owned by the Port of Melbourne Authority along South Wharf.

#### *Reasons for the Declaration as a Project of Special Significance to the State of Victoria*

It is the Government's intention that the Project be completed by December 1984 and in order to achieve that objective the Government resolved that the Governor in Council be requested to declare the Project a "Special Project" pursuant to the provisions of the *Economic Development Act 1981*.

Such a Declaration empowers the Minister for Economic Development, pursuant to Section 10 of the Act, to ensure that the planning and construction phases of the Project be co-ordinated by requiring, with the consent of the Minister of Planning and the Minister for Conservation, any relevant responsible body to carry out its functions in, or in relation to, any matter pertaining to the planning construction or operation of a "Special Project" within such time as is specified by the Minister in accordance with the statutory limitations of such relevant responsible body.

#### *Benefits to the State of Victoria*

- (a) Significant and continuing annual cost savings would accrue to all users of the rail link by reducing the double

handling currently involved in transferring containers from ship to rail via road transport.

- (b) The connection of Webb Dock to the Victorian rail system will enable this dock complex to be expanded and therefore achieve its full potential as a major shipping terminal.
- (c) The diversion of a proportion of the Webb Dock cargo to the rail system from less fuel efficient road transport will result in the conservation of higher cost fuel resources.
- (d) A direct rail link will offer a lower cost transport link to country and interstate destinations and will stimulate inter-modal transport between Victoria and other States.
- (e) The cost savings to industry and Government flowing from the foregoing will assist economic activity by helping increase the competitiveness of Victorian industry and will assist in retaining Victoria's position as the major container handling State for southern Australia.
- (f) The above increase in economic activity will also lead to increased employment opportunities directly in those industries benefiting from the improved facility and indirectly through the multiplier effect on the suppliers and customers of those industries.
- (g) The rail connection will result in social and environmental benefits to the local residents by immediately reducing heavy commercial traffic on Williamstown Road and other major access roads leading to the Dock area. It will also reduce the growth of such traffic on these roads in the future.

And the Honorable Ian Robert Cathie, M.P., Her Majesty's Minister for Economic Development for the State of Victoria shall give the necessary directions herein accordingly.
