All containers shall comply with all regulations pertaining to transport by rail or road.

If, during the course of the contract, the quality of the chemical is not considered by the Officer accepting delivery as being of the standard tendered for, such chemical may at any time be subjected to analysis, and, if found inferior to the standard sample, will be rejected, the cost of such analysis to be borne by the Contractor.

Products shall be registered under the *Agricultural Chemicals Act* 1958. Each container shall, in addition to the requirements of that Act and other legislation, bear a Batch or Reference Number.

- (a) Separate charges may be made for containers.
- (b) Empty containers for which a charge has been made should, where applicable, be returned to the contractor, and if in good order and condition, the charge for same shall be refunded by the contractor.
- (c) Each container for which a charge has been made must bear a label setting forth the amount of the charge. Labels must not be removed by departments from the containers to be returned.

All items so specified shall be supplied in accordance with the specifications available from the Tender Board Offices.

All items not otherwise specified shall be in accordance with Australian Standard Specifications where such exist and, in their absence, with British Standard Specifications.

Materials supplied under Items 11, 16–65 must be accompanied by a Laboratory Test Certificate from a National Association of Testing Authorities (NATA) Laboratory bearing NATA endorsement certifying that the material has been tested and complies with the specifications. Where material supplied is imported as the formulated material, a certificate of quality issued by the manufacturer will be acceptable subject to approval being obtained from the State Tender Board.
