Applications

Applications for the award of a permit over any of the above areas are required to be made in the approved manner, submitted in duplicate and should be accompanied by:

(a) Details of—

- (i) the applicant's assessment of the petroleum potential of the area, including a geological and geophysical review and technical assessment of the area and the concepts underlying the proposed exploration program;
- (ii) the applicant's minimum guaranteed proposal (in terms of operational activity and indicative minimum expenditure) for data evaluation, seismic surveys and exploration wells to be drilled, on the basis that none of the wells drilled encounters significant

hydrocarbons, for each year of the first three years of the permit term. This proposal, to be known as the "minimum guaranteed dry hole work program", should only include work expected to involve a substantial exploration component—appraisal work should not be included;

- (iii) the applicant's proposal (in terms of operational activity and indicative minimum expenditure) for data evaluation, seismic surveys and exploration wells to be drilled, for each of the remaining three years of the permit term. This proposal, to be known as the "secondary" work program, should only include work expected to involve a substantial exploration component—appraisal work should not be included.
- (b) Particulars of—
- (i) the technical qualifications of the applicant and of its employees;
 - (ii) the technical advice available to the applicant;
 - (iii) the financial resources available to the applicant, including evidence of the applicant's ability to fund the work program proposal, a statement of other exploration plans and commitments over the next six years, and a copy of the latest annual report for each applicant company;
 - (iv) where relevant, the viability of the consortium lodging the application, including evidence that a satisfactory settlement has been, or can be, reached on a joint operating agreement (a copy of a Heads of Agreement dealing will generally suffice);
 - (v) the percentage participation interest of each party to the application; and
 - (vi) the business address for service of notices in respect of each applicant.
- (c) A fee of \$3000, payable to the Commonwealth of Australia through an Australian bank or bank cheque, is required for each area (see section 21 (1) (f) of the *Petroleum (Submerged Lands) Act 1967*).
- (d) Such other information as the applicant wishes to be taken into account in consideration of the application including, for example, past performance in offshore exploration either in Australia or overseas; past performance and further intentions as to the sourcing of goods and services to be used in operations; evidence of recent willingness to apply for "frontier" exploration areas, such as previously unavailable areas, deeper water prospects, hostile environments; proposals to improve technical capabilities through research to be undertaken in Australia or overseas, and, in the case of foreign companies, proposals to transfer technology and skills to Australians.
- Further details of the modified work program bidding system outlined above, including the criteria

for assessment of applications and the conditions to apply following the award of a permit, are available from the Director of Petroleum, Department of Industry, Technology and Resources in Melbourne and from the Petroleum Division, Department of Resources and Energy in Canberra.

Applications together with relevant data should be submitted in the following manner to the Director of Petroleum, Department of Industry, Technology and Resources, 6th Floor, 151 Flinders Street, Melbourne, Victoria 3000, before 4.00 p.m. Friday, 26 June 1987:

'Melbourne from Williamstown', in the early days of settlement.

Historical Records of Victoria - Volume 4 Communications, Trade and Transport.

The eagerly awaited and much sought after *Historical Records of Victoria - Volume 4* is now available. In keeping with previously published volumes the quality of volume 4 is first class. Titled COMMUNICATIONS, TRADE AND TRANSPORT, this volume of *Historical Records of Victoria* brings together all official documents which could be located in the important areas of communications, shipping, trade and transport, during the founding years of settlement.

The volume is divided into five main parts. Part I contains a good deal of previously unpublished information on early shipping, charting and Customs activities around Port Phillip Bay.

Part II outlines the first Government-controlled immigration schemes involving Port Phillip. Passenger lists and other details have been included wherever available.

Part III deals with the growth and control of the liquor trade, which was of great importance to Customs and other civil authorities.

Part IV depicts problems encountered by the first newspaper publishers, who had to contend with Government licensing in addition to other pioneering difficulties.

Part V shows the attempts made to organise satisfactory postal services, at a time when the district's need for better communications was increasing with remarkable speed.

To date there are four volumes in the HRV series and all have been painstakingly designed for optimum legibility, reading pleasure and durability. Typesetting, printing and binding are of the very highest order. Special Archival paper—to last at least 500 years—has been utilised.
