GOVERNMENT NOTICES

ROAD SAFETY (VEHICLES) REGULATIONS 1988

General Mass and Dimension Permit—Articulated Vehicles, Rigid Vehicles, Rigid Vehicle and Trailer Combinations and Mobile Cranes

Regulation 724 of the Road Safety (Vehicles) Regulations 1988 authorises the Roads Corporation, by notice in the *Government Gazette*, to allow vehicles which exceed mass or dimension limits prescribed in the Regulations to be used on highways.

Regulation 807 of the Road Safety (Vehicles) 1988 (amongst other things) prohibits the use of a vehicle on a highway if any part of the load carried on the vehicle projects more than 1.2 metres beyond the rear of the vehicle.

Regulation 819 of the Road Safety (Vehicles) Regulations 1988 authorises the Roads Corporation to approve the use on a highway of a motor vehicle towing more than one other vehicle.

In accordance with those Regulations, I, David O'Sullivan, delegate of the Roads Corporation, allow motor vehicles specified in Part 1 of the following schedule which are within the mass and dimension limits specified in Part 2 to be used on highways (other than the Unauthorised Roads) specified in Part 3 on condition that they are operated in accordance with Part 4.

The whole of the notice under those Regulations published in the *Government Gazette* No. S61 dated 7 December 1990 is revoked.

THE SCHEDULE

PART 1—SPECIFIED VEHICLES

1.1 Specified vehicles

This General Mass and Dimension Permit applies to the following vehicles:

- Rigid mobile crane
- Rigid vehicle or rigid vehicle and trailer
- Articulated vehicle
- Extendible articulated vehicle
- Articulated low loader.

1.2 Approved multiple articulations

Permission is hereby given pursuant to Regulation 819 of the Road Safety (Vehicles) Regulations 1988 for operation of an articulated low loader consisting of a prime mover towing a dolly and a semi-trailer.

1.3 Definitions

In this Schedule—

“articulated low loader” means a vehicle consisting of a prime mover and a gooseneck semi-trailer with the loading area of the semi-trailer a maximum of 1 metre off the ground. To operate above statutory mass limits the prime mover must be tandem drive and together with the gooseneck semi-trailer must be designed and manufactured and plated to operate at the required mass limits.

“articulated vehicle” means a vehicle consisting of a prime mover and a semi-trailer.

“dolly” means a type of semi-trailer designed to load share but not to directly carry any cargo and with one or more axles, equipped with a king pin, a fifth wheel and other parts necessary for attaching it to the rear end of a prime mover and the front portion of a second gooseneck semi-trailer.

“extendible articulated vehicle” means a vehicle combination consisting of a prime mover and an extendible semi-trailer combination carrying a long indivisible item resulting in the overall length of the vehicle and load exceeding 17.5 metres but not exceeding 2.5 metres wide or 4.3 metres in overall height.

“gross vehicle mass” means the maximum permissible mass as defined in Regulation 205 (3) of the Road Safety (Procedures) Regulations 1988.

"holiday period" means three or more consecutive days which includes a gazetted Statewide school holiday or public holiday and a Saturday or Sunday at the start or end or within that period.

"indivisible item" means an item which cannot reasonably be divided into two or more items for road transport, and cannot be carried on an appropriate vehicle within the mass and dimension limits prescribed in the Road Safety (Vehicles) Regulations 1988. Indivisible items shall not be loaded side by side to a width in excess of 2.5 metres; or one above the other to an overall height in excess of 4.3 metres; or one behind the other to an overall length in excess of 11 metres for a rigid vehicle, or 17.5 metres for an articulated vehicle or a rigid vehicle and trailer; or to a mass in excess of statutory mass limits. Where the indivisible item can reasonably be loaded in more than one way, it shall be loaded in the way which minimises width.

"metropolitan areas" means those parts of Melbourne and Geelong as defined in Appendix 1.

"overhang line" means:

(a) for a single axle:

the centre line of the rear axle;

(b) for a tandem axle group:

where both rear axles are fitted with an equal number of tyres, a line midway between and parallel to the centre lines of those axles;

where one rear axle is fitted with more tyres than the other axle, a line parallel to the centre lines of those axles and located one third of the total distance between the two axles and nearer to the axle with the most tyres;

(c) for a tri-axle group:

a line midway between and parallel to the outside rear axles of that axle group.

"pilot vehicle" means a motor vehicle up to 4.5 tonnes Gross Vehicle Mass or, if it exceeds 4.5 tonnes, means a motor vehicle with a body width not exceeding 2.0 metres and overall length not exceeding 7.0 metres, carrying no visible load, and complying with the specified conditions of Part 4.7 and 4.8 of this Gazette notice.

"prime mover" means a motor vehicle that is constructed, designed or adapted for connecting to a semi-trailer.

"public holiday" means Australia Day, Labour Day, Good Friday, Easter Monday, Anzac Day and Queen's Birthday.

"rear overhang", in respect of a vehicle, means the distance between the rearmost point of the vehicle (and any load) and the overhang line.

"restricted road" means a high traffic volume road listed in Appendix 2 to which special travel restrictions specified in Part 4 apply.

"rigid mobile crane" means a right-hand drive non-load-carrying self-propelled rigid vehicle designed for lifting heavy objects by way of a boom with lifting gear.

"rigid vehicle" means a vehicle with its own motive power, other than a rigid mobile crane or bus, that can tow a trailer.

"RoRVL Option A or Option C axle mass limits" means limits specified in the 'Review of Road Vehicle Limits' study for vehicles using Australian Roads published by the National Association of Australian State Road Authorities in November 1985.

"semi-trailer" means a vehicle without its own motive power which is capable of being drawn by a prime mover in such a way that it is attached to and pivoted on the prime mover by imposition on it on or in front of the rear axle of the prime mover so that the semi-trailer is free to turn relative to the prime mover when the prime mover is rounding a curve and so that part of the mass of the semi-trailer and any load carried on it is borne by the prime mover.

"standards for registration" means the standards published in the *Government Gazette* No. S15 dated 1 March 1988 under section 10 (1) of the *Road Safety Act 1986*.

"statutory mass limits" and "statutory dimension limits" means limits specified in Part 7 of the Road Safety (Vehicles) Regulations 1988 and the standards for registration.

"street lighting" means areas where there is artificial lighting by luminaires which are at a maximum distance of 100 metres apart.

"trailer" means a vehicle without its own motive power which is capable of being drawn by a
