Gas Tariffs

Natural Gas consumers are hereby notified that the following new tariffs will apply to meters scheduled to be read on and after 17th August 1993 for consumers billed on a monthly basis and 14th September 1993 for consumers billed on a two monthly basis.

The application of these tariffs will coincide with a revision in the pressure factor from 1.0 to 1.01086. This revision will enable billing of gas at atmospheric pressure. Previously, bills were calculated at slightly above atmospheric pressure. To counteract the resulting increase in the quantity of gas billed, all commodity charges have been reduced in the same proportion.

Domestic tariffs have been increased by 1.2% after allowing for the above change in the pressure factor.
