NOTICE OF GENERAL CONDITIONAL EXEMPTION

Dangerous Goods (Storage and Handling) Regulations 1989 INTERMEDIATE BULK CONTAINERS IN STORAGE

Purpose

To allow certain intermediate bulk containers (IBCs) to be deemed as “packages” for the purposes of dangerous goods storage requirements, without compromising the safety of persons or property, subject to the following conditions.

Exemption

In accordance with Regulation 110 (1) of the Dangerous Goods (Storage and Handling) Regulations 1989, I exempt occupiers of premises where dangerous goods are stored, from the definition of “storage in bulk” prescribed in Regulation 107, as it relates to rigid plastic or metal IBCs used for the storage of liquids or pastes.

I am satisfied that compliance with this part of the Regulation is not practicable under the circumstances for the specified occupiers storing dangerous goods in IBCs, and the health and safety of people and the safety of property will not be adversely affected by this Exemption.

I make this Exemption subject to the following Conditions, which apply to all premises and all occupiers under this Exemption:

Conditions of Exemption

The following general conditions apply to all premises under this Exemption:

1. The storage of dangerous goods in IBCs must comply with all the requirements of the Dangerous Goods (Storage and Handling) Regulations 1989 for packaged dangerous goods.

2. The IBCs used in storage must be of a capacity not exceeding 1600 litres.

3. Spill containment must be provided to the IBC storage to the capacity of 25 per cent of the total capacity of all the dangerous goods containers in the room or space, or to 100 per cent capacity of the largest container, whichever is the greater.

4. IBCs must not be stacked more than two high, unless racking is provided for the purpose, and used as appropriate.

Failure to comply with any of the above Conditions of Exemption renders this Exemption void in relation to the occupier who has failed to comply, and constitutes a breach of the Dangerous Goods Act 1985 by that occupier.

97. Each crypt shall be designed to accommodate not more than two adult coffins, and the Trustees may prescribe the minimum and maximum dimensions of any crypt.

98. The opening of a crypt may be at the end, side or top.
