**EXEMPTION**

Application No. 35 of 1996

The Anti-Discrimination Tribunal constituted by the President pursuant to Section 83 (5) (a) (ii) of the Equal Opportunity Act 1995 ("the Act") has considered an application pursuant to Section 83 of the Act by Anne Morrison, Operations Manager for Garrin Sanico (a division of Garrin Services Pty Ltd) to promote a balance of male and female staff by advertising for and employing males only for positions with responsibilities for cleaning toilets used by males or females only for positions with responsibilities for cleaning toilets used by females.

Upon reading the material tendered in support of this application the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to permit the applicant to advertise for and employ males only for positions with responsibilities for cleaning toilets used by males or females only for positions with responsibilities for cleaning toilets used by females.

In granting this exemption the Tribunal noted:

- that the company employs 10 females and 2 males;
- there is a need to keep a gender balance;
- that Company policy is that servicing in male toilets be carried out by males and in female toilets the service is carried out by females;
- a female servicing a sanitiser in a cistern above a urinal could be embarrassing for a male using the urinal;
- female clients have complained that they do not appreciate and find it embarrassing walking into a toilet area and out of the toilet area to find a man in the washroom area awaiting to change a sanitary bin;
- the company has had previous exemptions numbered 7/93 and 9/96.

The Tribunal grants an exemption from the operation of Sections 13, 100 and 195 of the Equal Opportunity Act 1995, this exemption to remain in force until 7 August 1999.

President

**Subordinate Legislation Act 1994  
REGULATORY IMPACT STATEMENT  
Road Safety (Procedures) (Parking Penalties)  
Regulations 1996**

Notice is given in accordance with Section 11 of the Subordinate Legislation Act 1994, that a Regulatory Impact Statement (RIS) has been prepared in relation to the Road Safety (Procedures) (Parking Penalties) Regulations 1996.

The reason for the proposed Regulations is to group like offences together to ensure that penalties are appropriate to the severity of the offence, and to raise the prescribed penalty for offences in Clauses 3 and 4 of Schedule 5 to the Road Safety (Procedures) Regulations 1988 to \$60 and \$100 respectively. The amending Regulations do not create any new offences. The Regulations also raise the maximum number of penalty units that may be imposed by a court for convictions for equivalent offences.

Parking restrictions are designed to control the behaviour of motorists so as to maximise the flow of traffic and promote the safety of all road users, while ensuring equitable access to available parking for eligible vehicles. For parking restrictions to be effective it is necessary that penalties be set at a rate that is appropriate to promote compliance.

The objectives to be achieved by the Regulations are to—

- (i) Provide for safe, efficient and equitable road use;
- (ii) Group parking offences according to their impact on health and safety, traffic management and equitable access to parking facilities; and
- (iii) Ensure that parking infringement penalties are appropriate to the severity of the offence and to promote compliance with parking regulations.

The RIS examined the implementation of a public education program as an alternative to the proposed Regulations. Whilst an education program would increase public awareness of the penalties associated with a breach of the Regulations, on its own, it would not be sufficient to modify offending behaviour. For this reason, maintaining the deterrent value of fines would be more effective in promoting compliance with parking management requirements.

The RIS concluded that the proposed Regulations are the most cost effective and efficient means of meeting the objectives.

Public comments are invited on the RIS and accompanying Regulations. Copies may be obtained by telephoning (03) 9854 2767.

Written submissions will be received at the following address up to 5.00 p.m. on Wednesday, 4 September 1996: The Manager, Traffic Management Services, Roads Corporation, Level 2, 60 Denmark Street, Kew, Victoria 3101. All submissions will be treated as public documents.
